

THE ATLANTA CONSTITUTION.

VOL. XXIX

ATLANTA, GA., THURSDAY MORNING, JUNE 25, 1896.—SIXTEEN PAGES.

PRICE FIVE CENTS

GEORGIA DEMOCRACY TRUE TO THE PEOPLE

SPEAKS IN CONVENTION TODAY

RINGING FREE COINAGE RESOLUTIONS

Will Declare in No Uncertain Terms for the Faith of the Fathers.

THE CONVENTION'S WORK

Will Be Done Without Serious Conflict or Friction.

THE CAUCUS WAS SOON THROUGH.

Delegates at Large Probably Howell, Lewis, Walsh and Brown.

DISTRICTS TO CAUCUS, THIS MORNING.

The Men Who Are Candidates—The News Happenings of the Day—Eminent Georgians Who Figure in Convention Happenings.

Macon, Ga., June 24.—(Special).—The preliminary work has been done. At noon tomorrow the democratic state convention meets in the Academy of Music to nominate state officers, to adopt a ringing democratic platform declaring for the free coinage of both gold and silver—a return to the financial system of our fathers repudiated by the treacherous crime of 1873, and to elect delegates to the Chicago convention as Georgia's part in nominating a candidate for president on a free coinage platform, who will be the next to occupy the White House.

The convention will be the most unanimous ever assembled in Georgia. Of 350 delegates 330 are one way. The remaining twenty being in such a hopeless minority will make no contest, but will unite with their colleagues to make Georgia all one way. Clarence Wilson will be temporary chairman and Steve Clay permanent chairman. Both will be elected by acclamation. Governor Atkinson and all the statehouse officers will be unanimously re-nominated. The delegates at large to Chicago will be elected the same way and the action of the district delegations in choosing delegates will be ratified by acclamation.

The convention will do its work with speed, enthusiasm and unanimity.

THE STORY OF THE CAUCUS.

It Shows That Everything Is Harmonious.

Macon, Ga., June 24.—(Special).—Put me but tried men on guard. And cast the vote of Georgia as a unit for the free and unlimited coinage of silver at the ratio of 16 to 1. That is the music which the convention tomorrow will march by, as arranged by the silver majority tonight.

The feature of today, preceding the assembling of the state democratic convention tomorrow, was looked for in the caucus of the silver majority called for tonight. That caucus was to have been held in the Academy of Music, but the work of preparing the hall for the convention had not been completed, and it was found impossible for the body to meet there. When other arrangements had to be made and the doors of the city court-house, the room was packed and still more than half of the delegates were on the sidewalk outside. The fact was, instead of being a caucus of a wing of the convention, it was practically the convention itself, showing that now there is one kind of democrat in Georgia—the kind that clings to the free and unlimited coinage of both the precious metals. And when a larger room was then secured, and when this was insufficient, and it was at this juncture that a change was made in the scope of the caucus.

Here was presented the curious spectacle of a convention united, almost one man, so much so that the calling of a caucus together would require all the formal preliminaries of the main body itself. It was then informally agreed upon that, in the face of this unanimity, it would be unnecessary to go into all the details of choosing delegates, etc., which usually comes up on such an occasion and to confine the work of the caucus to a mere expression of policy.

When the delegates, so many of them as could get in, had assembled, Mr. Hal Hunt, William H. Fleming, ex-speaker of the Georgia house of representatives, he called to the chair, which was adopted unanimously. When taking his seat the chairman from Richmond expressed his surprise at the honor conferred upon him,

Chicago convention be instructed to act under the unit rule on all questions that come before that convention and cast the vote of this state as a unit as a majority of said delegates may determine.

With this work the caucus adjourned to meet again in regular convention at 12 o'clock noon tomorrow.

"There is no need of losing much time in this convention," said Captain Howell tonight. "The delegates know what the people sent them here for and all they have to do is to get together, do it promptly and then go home."

all day and every delegate crowded around him with the words:

"Say what you want, colonel, and you shall have it."

"Nothing," he responded to all such, "but to do my share in the work of the Georgia democracy doing its duty to the people and the great party."

Many conferences were held during the day between the leading men about a platform. Governor Atkinson, Colonel Robertson, Chairman Clay, Captain Howell, ex-Senator Walsh, Senator Bacon, Uncle Bob

form which will be adopted tomorrow. It may be that a few words will be changed, but the indications are that it will be adopted as it is.

The plank, as prepared by Colonel Robertson, is presented in full on this page. It covers the whole ground.

From the gold men there will be no protest against this platform. Everything in the convention will be with unanimity. There is no disposition on the part of the few gold men to create any wrangle or discontent. Everything will be harmonious.

Of course there will be other things in the platform. The administration of state affairs by Governor Atkinson and the statehouse officers will be endorsed. The present convict system will probably be condemned, and a few other matters will be briefly incorporated in the platform. But the currency plank will be its feature.

Colonel Jim Robertson will be the chair-

HOW GEORGIA WILL SPEAK OUT.

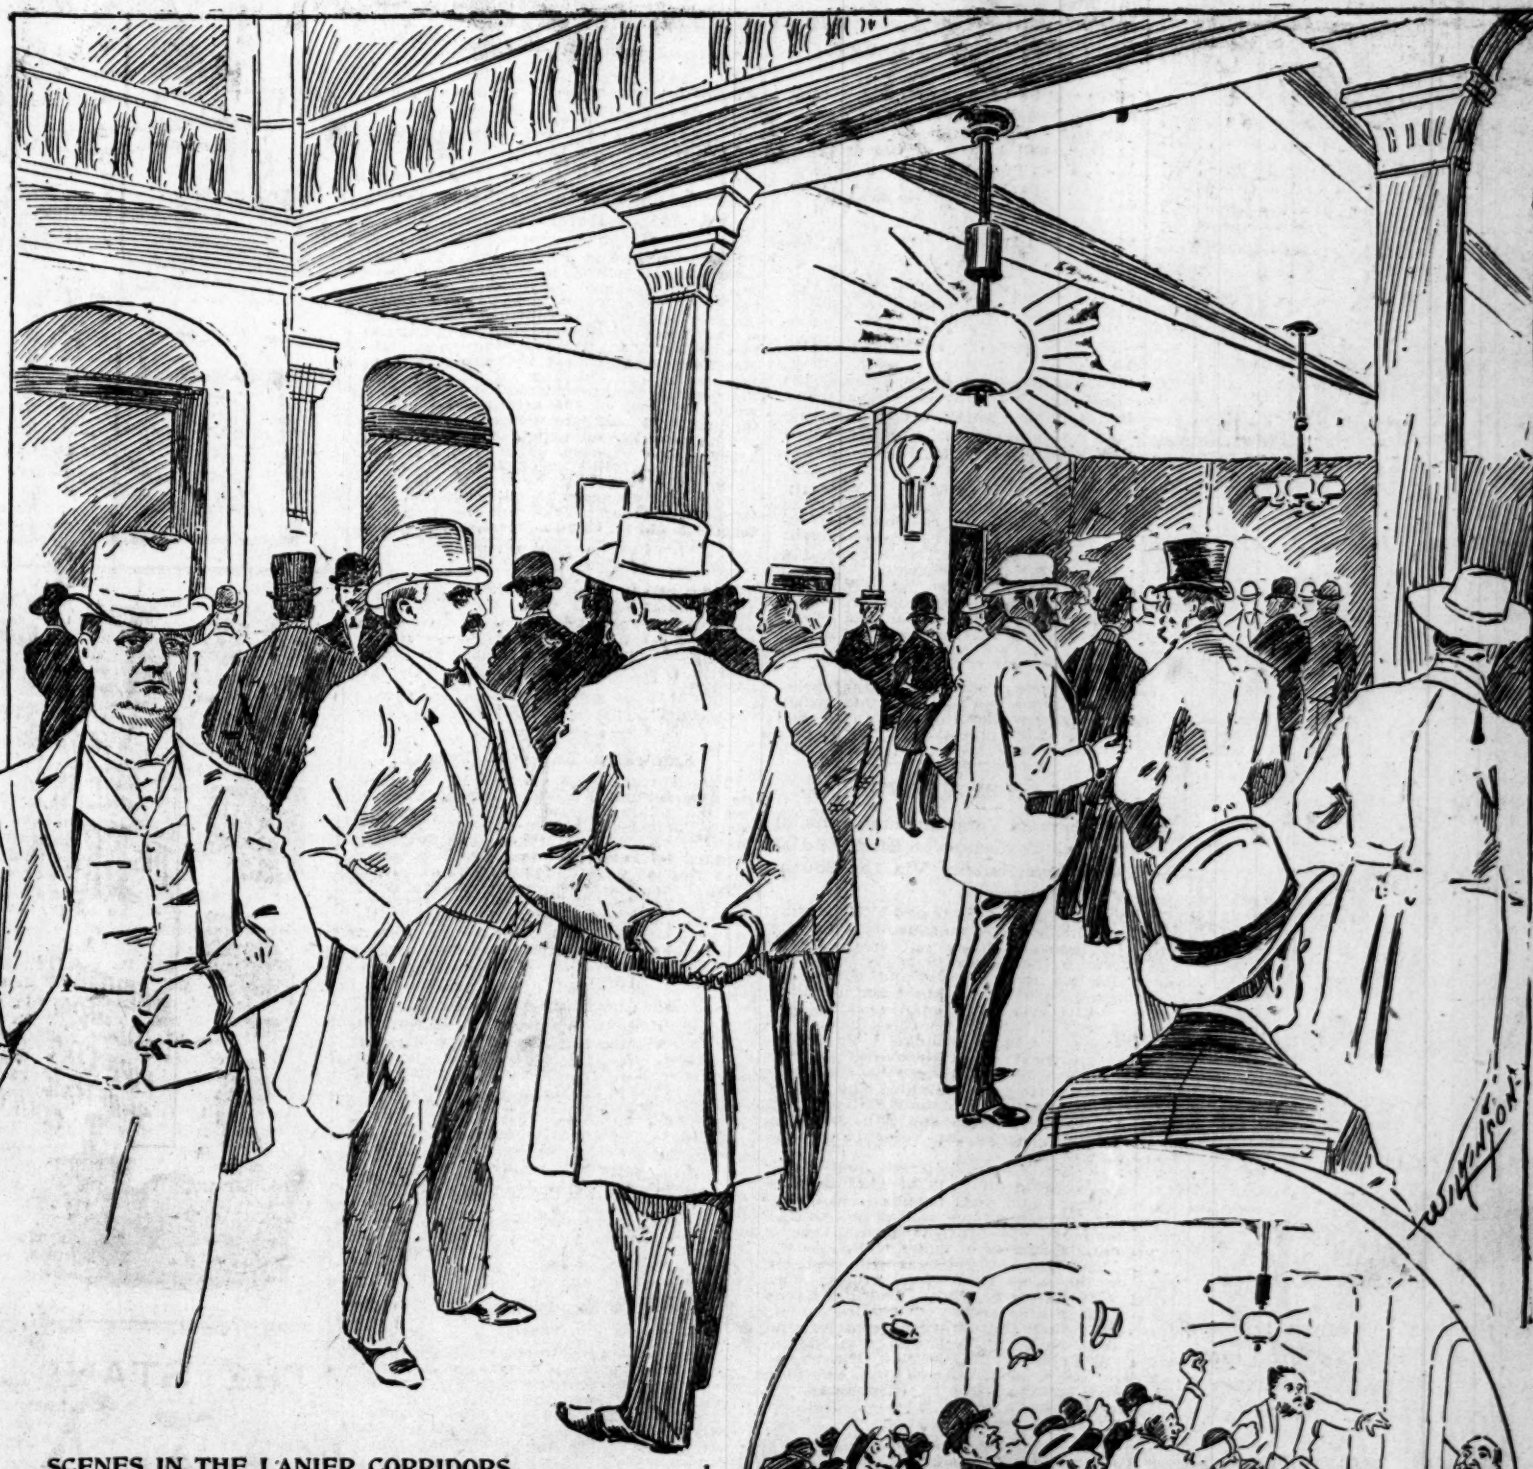

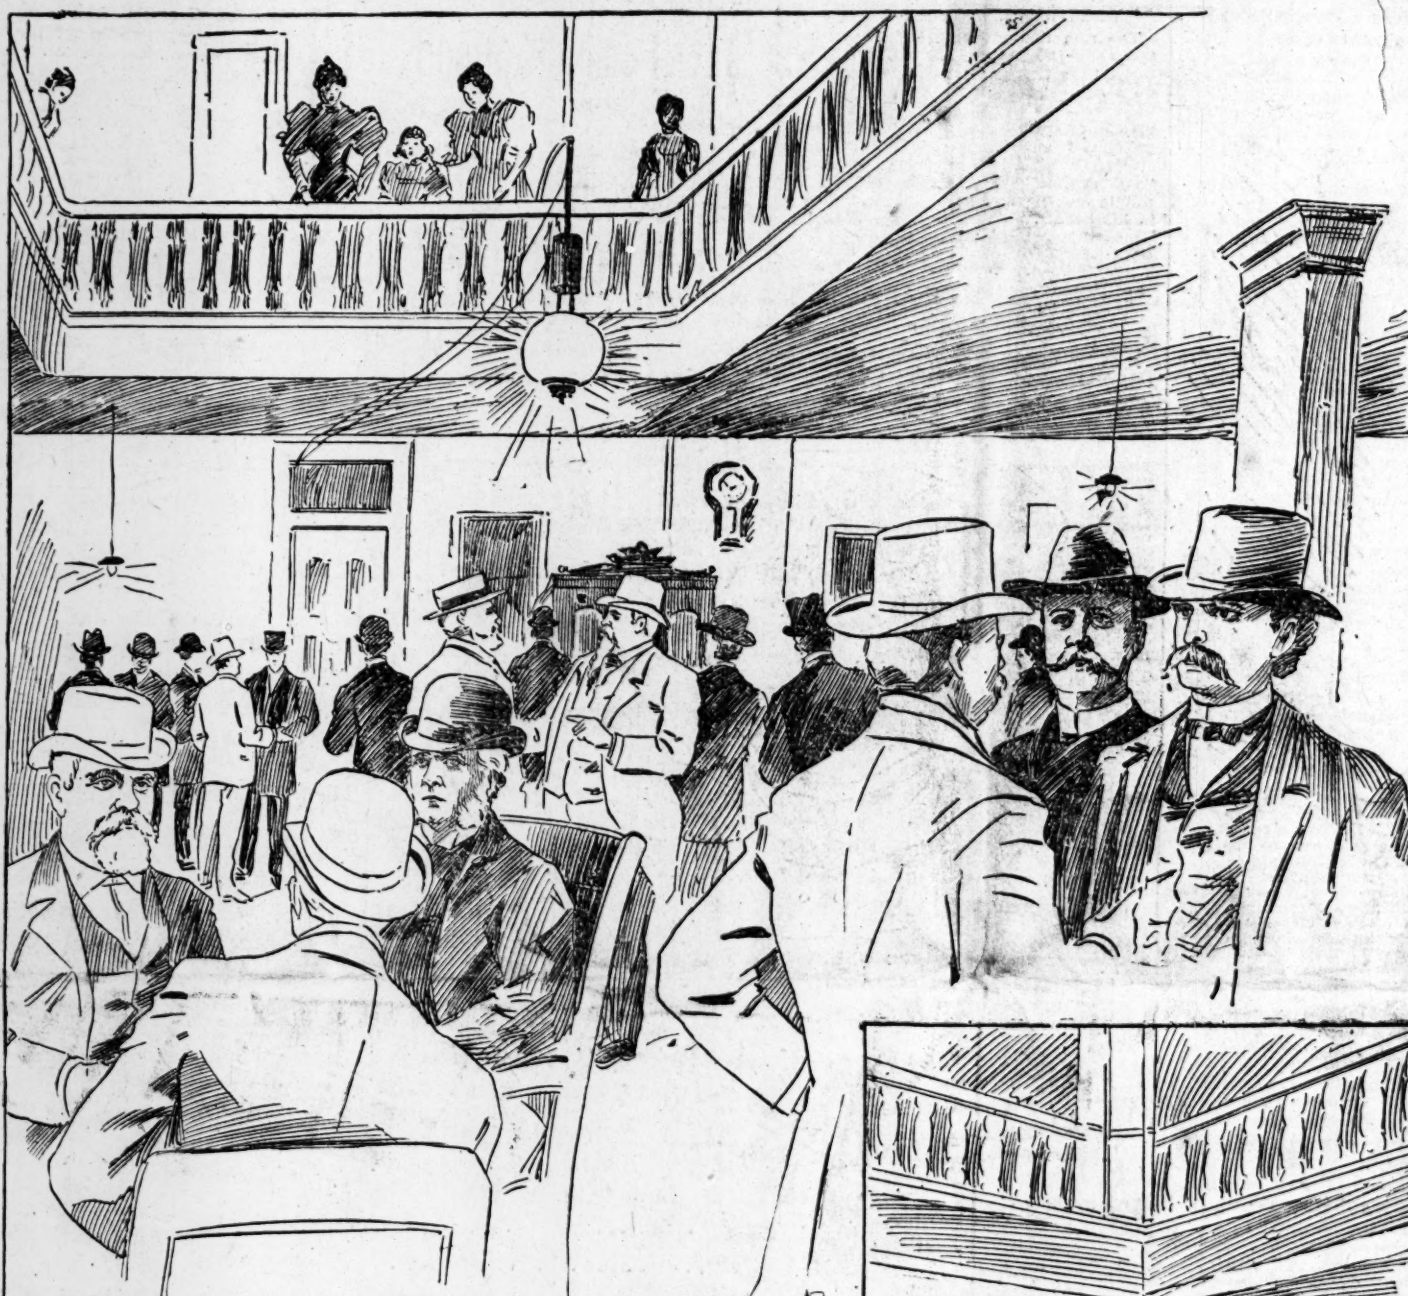

These are the Financial Resolutions Which Will Be Adopted.

Resolved, That the democratic party of Georgia, through properly accredited delegates, in convention assembled, hereby declares its devotion to that time-honored doctrine of pure democratic faith, which demands that the primary money of the country shall be the gold and silver coinage of the constitution and which favors a circulating medium convertible into such money without loss.

Resolved, That congress has no power to discriminate at the mints against either gold or silver as metals for the coinage of primary money, or against gold or silver coin of the United States as to their debt-paying functions—such discriminations deprive the citizen of the use of one kind of standard money provided by the constitution for the payment of debt, and we demand the repeal of all laws or parts of laws making such discriminations, and the restoration of the standard silver dollar to the rank of primary money which it held prior to 1873—by opening the mints to the coinage of silver on a perfect equality with gold at the ratio of sixteen to one.

Resolved, That we condemn a financial policy which necessitates the increase of the bonded debt of the country in time of peace to maintain an unnecessary gold reserve, or to pay the current expenses of the government. We also condemn a policy which seeks to retire the United States and treasury notes, as they constitute an absolutely safe circulating medium based on gold and silver coin, and backed by the entire wealth of the country. Such a policy would not only intensify the present evil of contraction, but place the exclusive right to issue a circulating medium in the control of a concentrated money power and above the laws and the will of the people—and foster the federal doctrine of centralization and class government through financial control, a doctrine which is a standing menace to our republican institutions and the liberties of the people; and we demand the repeal of all laws which clothe a secretary of the treasury with the more than imperial power to issue bonds and increase the public debt at his will and pleasure without specific authority from congress.

Resolved, That we favor the payment of the public debt as rapidly as practicable; all moneys drawn from the people by taxation, except so much as is requisite for the necessities of the government economically administered, should be honestly applied to such payment, and when the obligations of the government expressly state on their face, or the law under which they were issued provides, that they are payable in coin, or in dollars, such obligations should be paid in gold or silver coin, at the convenience of the government and not at the option of the holder of the obligation.

SCENES IN THE LANIER CORRIDORS.

Atkinson, Bacon, Crisp, Clay, Robertson, "Jim" Smith and Other Leaders. Seen in the Crowd.

Hardeman, Lon Livingston, Carter Tate, Charley Moses, Boykin Wright and all the leading men talked over platforms, read over rough drafts, interlined and fixed up. Then Colonel Robertson went off for a time and returned with a currency plank he had prepared which at once captured every one, and it was tacitly agreed among all that it should be the currency plank and the main feature of the platform to be adopted tomorrow.

There is no mincing of matters in it; no straddling; it is a straight, clear, free declaration, plain in what it says and meaning in it.

It is the plank, the feature of the plat-

man of the committee to draft it, and he will present it to the convention.

THERE'S NOTHING IN IT.

Macon, Ga., June 24.—(Special).—The Macon papers today printed a story to the effect that when the Chicago convention adopts a free coinage platform Tom Watson will return to the democratic party and announce himself a candidate for the democratic nomination for congress from the tenth.

The delegates here from the tenth say this is the first they have heard of the story and that, so far as they know, there is nothing whatever in it.

THE FULTON COUNTY DELEGATION ATTRACTED MUCH ATTENTION.

HAYING TIME FOR CANDIDATES

Scores of Them at Macon Promoting Their Interests by Hard Work.

FEW DELEGATES TO BE JOLLIED

Status of the Contests for the Diverse Offices of Honor.

ONLY TWO OUT FOR THE SPEAKERSHIP

Four or Five in the Race for President of the Senate—Dozens of Solicitors and Judges There.

Macon, June 24.—(Special.)—The candidates have had a field day among themselves. There must be a hundred of them all told hot on trail of some office, and there is not a position from United States Senator to doorkeeper of the house that is not the object of some one's earnest quest. The only men who are not much in evidence are delegates to this convention who are not canvassing for something else. All day long the Lanier house lobby has been thronged with the men who are familiar figures in state conventions and in the general assembly. This is not an idle place for electioneering, because candidates do not get a fair chance at a man everybody is so crowded and elbowed that one does not get an opportunity to have a quiet talk.

"I can do it to meet men, make their acquaintance and tell them what I am making for," said a candidate. "It is impossible for any of us to make an impression. A candidate wants to get a man in a quiet corner to make an impression."

Senator Bates was in and out during the day, and all had something pleasant to say to him.

It must have been like Sunday at the statehouse, for all the capital officials were here. Governor Atkinson held a reception all day long in his rooms on the second floor. Colonel Candler, secretary of state; Comptroller General W. A. Harde, Commissioner Nesbitt, of the agricultural department; Attorney General Joseph Smith, Commissioner of the Port and Customs are here. Colonel Mark Hardin is giving out tickets of admittance to the delegates and the newspaper men. And "Peter" is here, and wherever you find "you find water"—which goes "on the side."

Governor Atkinson says he wishes the second term nominations would come first. There are so much the easiest. The statehouse ticket, with the exception of the nomination of agriculture, could be nominated in a bunch tomorrow by acclamation, and Commissioner Nesbitt is conceded to be certain of re-nomination.

Judge Crisp arrived tonight from Asheville, and he received an ovation when he stepped around the boys. The sentiment among the men here is practically solid for him. Probably never in the history of Georgia has a candidate had his party more solidly behind him. Like the candidates for the state house offices Judge Crisp finds it unnecessary to do any canvassing.

Congressmen Moses, of the fourth; Livingston, of the fifth; Bartlett, of the sixth, and Tate, of the ninth, are here.

William G. Brantley, of Brunswick, the nominee in the eleventh, and W. M. Howell, of the twelfth, are also here. They are conspicuous figures. Judge James Griggs, who is making what is believed to be a winning fight in the second, came in yesterday. E. B. Lewis, of Montezuma, who won the fight for Judge Crisp's seat, is here, and Judge W. C. Adams, of Carroll, is cultivating the delegates from the fourth who have reached here.

A. G. McCarry, of Hart; Harry Dunwoody, of Glynn, and R. L. Berner, of Monroe, are pushing their candidacy for president of the senate. They represent the northern, middle and southern sections of the state. Colonel Hopkins, of Thomas, is expected here. This is quite a race, and, of course, so far as anybody's. The friends of Mr. Dunwoody are giving him especially enthusiastic support and he has many supporters throughout the state.

John T. Boileau, of Macon, has quite a boom for speaker of the house. Hut Jenkins, of Putnam, may come in tonight and go to work on his candidacy. There are whispers of one or two other candidates, Bob Whitfield, of Baldwin, for one; but there are no new announcements. Felix Corput, of Floyd, is said to be a possibility.

Colonel Bill Clifton, of McIntosh, and Charles Northern, of Atlanta, are not making a secret of the fact that they are again in the race for secretary of the senate. Both

for general and was appointed to the bench recently to succeed Judge B. B. Bower, who resigned to make the race for congress in the second.

Solicitor General W. E. Wooten, of Albany, has no opposition for re-election.

Brunswick Circuit.
The nomination of Solicitor General William G. Brantley, of Brunswick, for congress, leaves a vacancy in that circuit. John W. Bennett, of Wayne, who has twice represented his county in the general assembly, is here hard at work. He has been running for a good while and is making a good race. George B. Mabry, of Brunswick, and William M. Toomer, of Waycross, are in the contest, too. Mr. Mabry recently published a handy list of the various candidates and sent it around.

Judge Sweet, in this circuit, has two years more to serve.

Blue Ridge Circuit.
Judge George F. Guber came down yesterday. He has no opposition, but he likes to look on and see what is being done.

Solicitor General George Brown will not

borne is president of the Citizens' Club of Savannah. Mr. Fraser is backed by the Liberal Club. The fight is bitter between these two factions, and the result of the election between them for representatives in the general assembly will influence the election of solicitor. Mr. Fraser has the endorsement of the grand jury in all the counties of his circuit, except one. Mr. Fraser has a strong pull with the boys through the state. This will be one of the most interesting contests before the legislature. Messrs. Fraser and Osborne are both here.

Flint.
Judge Marcus Beck has two years longer to serve, and Solicitor General O. H. Bloodworth has no opposition, hence there is no disturbance in this circuit. Mr. Bloodworth is down, however.

Macon.
Judge William H. Felton has no opposition for his election and made himself solid in this circuit.

Macon has two candidates for solicitor—Robert Hodges and Hope Polhill—and "Bob" Holtzclaw, of Houston county, is in it making a triangular campaign. Messrs. Hodges and Polhill are busy. Both were in the last house, and Mr. Hodges was in the house from 1892 to '94. Mr. Holtzclaw has a wide acquaintance, too, among the public men of the state. John R. Cooper, who has been out and in the race the second time, is out again today. Of course, he may come again.

Middle.
Judge Roger Gamble, of Louisville, has half of his term to serve, but the solicitorship is not going begging. Every county in the circuit has a candidate, but some of the militia districts are yet to be heard from. Solicitor General Beverly Evans will not run, but former Representatives B. T. Rawlings, of Sandersville, S. L. Moore, Jr., of Statesboro, and Charles Wright, of Louisville, and V. B. Robinson, of Louisville, are making a hard race. Messrs. Wright, Moore and Robinson are conducting correspondence with candidates for representative and senator.

Northern.
The Northern circuit promises two good races. Solicitor General W. M. Howard will go to congress from the district of the militia districts are yet to be heard from. Solicitor General Beverly Evans will not run, but former Representatives B. T. Rawlings, of Sandersville, S. L. Moore, Jr., of Statesboro, and Charles Wright, of Louisville, and V. B. Robinson, of Louisville, are making a hard race. Messrs. Wright, Moore and Robinson are conducting correspondence with candidates for representative and senator.

Occanee.
Judge "Cap" Smith, of Hawkinsville, and his opponent, John P. Delacy, of Eastman, are both here with friends, and the man who wins this race will know that he has been in a contest. Both are popular and strong lawyers.

Solicitor General E. E. Eason is one of the fortunate whose terms expire when there is not much of a scramble.

Pataula.
Judge John Hart has two years more. Solicitor General Gray Lewis is without opposition, and so is Eason.

The changes have been swift in this circuit in the past years. Judge Griggs was appointed to fill an unexpired term and after being elected by the general assembly, resigned to run for congress in the second. Solicitor General Henry Sheffield was appointed judge. He has no opposition now, but Solicitor John R. Irwin, who was appointed by Governor Atkinson, will be opposed by Clarence Wilson, of Clay, C. C. Bush and M. C. Edwards, Jr., of Blakely. Clarence Wilson, who will be temporary chairman of tomorrow's convention, canvassed the last general assembly thoroughly. Mr. Wilson has been in the senate and house. Mr. Bush is also an ex-member of the house.

Rome.
Judge W. M. Henry has no opposition. Solicitor General Joe Nunnally is opposed by Messrs. R. Wright, who represented Floyd in the last house. The recent campaign in Floyd for representatives was vigorous, and Mr. Wright is said to have the delegation, or at least two of the three. He came down yesterday and is on the move.

Stone Mountain.
Judge John J. Candler, who recently succeeded the late Judge Edward H. Clark in the last house, has no opposition. Solicitor General William T. Kimball, of Clayton, they have an easy race.

Southern.
Judge Augustine H. Russell, of Thomas, never is opposed. He is so highly esteemed that the field is always clear for him. But it is not so with the solicitorship. H. E. Peoples will not run, but W. E. Thomas, of Lowndes; W. C. Snodgrass, of Thomas; and W. S. Humphries, of Brooks, are in the race, too, but neither he nor Colonel Hill was here during the day.

Mr. Heyward and Mr. Fulton Colville, who are mentioned as candidates for Judge Lumpkin's seat, are here making acquaintances.

Albany Circuit.
Judge W. M. Spence, in the Albany circuit, is opposed by J. S. Bush, also of Camilla. Judge Spence was formerly solicitor.

HON. CLARENCE WILSON,

The Clay County Leader, Who Will Be Temporary Chairman.

are here and Clifton knows them all, but not personally, then by family resemblance.

Colonel Mark Hardin, ex-Senator Tatum, of Dade, and Colonel George Jones, of Gwinnett, former keeper of the penitentiary, are canvassing for clerk of the next house. The liveliest electioneering is by the candidates for judgeships and solicitorships. These candidates are numbered by the score and most of them are here tonight. Below is given the situation in the different circuits.

Augusta Circuit.
Judge Callaway, of the Augusta Circuit, has two years longer to serve, and therefore there is no election for the bench.

William H. Davis, of Waynesboro, Burke county, the present solicitor, is opposed by Henry Hammond, who was in the last house from Augusta. Mr. Hammond filed the unexpired term of John Barnes, who resigned. Daniel Fogarty, who was also in the last house, was talked of some time ago for solicitor, but is not in the race. Mr. Davis came in yesterday and has been making hay today—while the sun shone hot.

Atlanta Circuit.
Atlanta presents one of the notable contests, and it is over the solicitorship, which is attracting more attention than the race for the judgeship. Mr. Lewis Thomas has been here all day and he says that he is glad that he came. He has made some votes. He is opposing Solicitor General Charles Hill. Mr. E. T. Williams is in the race, too, but neither he nor Colonel Hill was here during the day.

Mr. Heyward and Mr. Fulton Colville, who are mentioned as candidates for Judge Lumpkin's seat, are here making acquaintances.

Albany Circuit.
Judge W. M. Spence, in the Albany circuit, is opposed by J. S. Bush, also of Camilla. Judge Spence was formerly solicitor.

Chattahoochee.
Judge W. B. Butt, of Columbus, has no opposition, but there is talk of proposing him for congress from the fourth district in the event of a deadlock.

Solicitor General Price Gilbert, who defeated four of five candidates in 1892, has no opposition. Charlton Battle was in the race at one time, but he is now running for the state senate, and will be elected.

Coweta.
Judge Samps Harris, of Carroll, has no opposition.

Solicitor General Tom Atkinson, of LaGrange, is opposed by Luther M. Farmer, of Coweta, the home of Governor Atkinson, the present solicitor's brother. The solicitor is on the ground here and is getting in good work.

Eastern.
Judge Robert Fallgaiter, of Savannah, has no opposition.

The solicitorship of this circuit is a peach worth from \$4,000 to \$5,000 a year, and it was to be expected that the present incumbent, Wallace W. Frazier, would have opposition. Ex-Senator W. W. Osborne, of Savannah, and Walter W. Sheppard, of Hinesville, are also in the race. Mr. Os-

borne is president of the Citizens' Club of Savannah. Mr. Fraser is backed by the Liberal Club. The fight is bitter between these two factions, and the result of the election between them for representatives in the general assembly will influence the election of solicitor. Mr. Fraser has the endorsement of the grand jury in all the counties of his circuit, except one. Mr. Fraser has a strong pull with the boys through the state. This will be one of the most interesting contests before the legislature. Messrs. Fraser and Osborne are both here.

Flint.
Judge Marcus Beck has two years longer to serve, and Solicitor General O. H. Bloodworth has no opposition, hence there is no disturbance in this circuit. Mr. Bloodworth is down, however.

Macon.
Judge William H. Felton has no opposition for his election and made himself solid in this circuit.

Macon has two candidates for solicitor—Robert Hodges and Hope Polhill—and "Bob" Holtzclaw, of Houston county, is in it making a triangular campaign. Messrs. Hodges and Polhill are busy. Both were in the last house, and Mr. Hodges was in the house from 1892 to '94. Mr. Holtzclaw has a wide acquaintance, too, among the public men of the state. John R. Cooper, who has been out and in the race the second time, is out again today. Of course, he may come again.

Middle.
Judge Roger Gamble, of Louisville, has half of his term to serve, but the solicitorship is not going begging. Every county in the circuit has a candidate, but some of the militia districts are yet to be heard from. Solicitor General Beverly Evans will not run, but former Representatives B. T. Rawlings, of Sandersville, S. L. Moore, Jr., of Statesboro, and Charles Wright, of Louisville, and V. B. Robinson, of Louisville, are making a hard race. Messrs. Wright, Moore and Robinson are conducting correspondence with candidates for representative and senator.

Northern.
The Northern circuit promises two good races. Solicitor General W. M. Howard will go to congress from the district of the militia districts are yet to be heard from. Solicitor General Beverly Evans will not run, but former Representatives B. T. Rawlings, of Sandersville, S. L. Moore, Jr., of Statesboro, and Charles Wright, of Louisville, and V. B. Robinson, of Louisville, are making a hard race. Messrs. Wright, Moore and Robinson are conducting correspondence with candidates for representative and senator.

Occanee.
Judge "Cap" Smith, of Hawkinsville, and his opponent, John P. Delacy, of Eastman, are both here with friends, and the man who wins this race will know that he has been in a contest. Both are popular and strong lawyers.

Solicitor General E. E. Eason is one of the fortunate whose terms expire when there is not much of a scramble.

Pataula.
Judge John Hart has two years more. Solicitor General Gray Lewis is without opposition, and so is Eason.

Rawlings, of Sandersville, S. L. Moore, Jr., of Statesboro, and Charles Wright, of Louisville, and V. B. Robinson, of Louisville, are making a hard race. Messrs. Wright, Moore and Robinson are conducting correspondence with candidates for representative and senator.

Northern.
The Northern circuit promises two good races. Solicitor General W. M. Howard will go to congress from the district of the militia districts are yet to be heard from. Solicitor General Beverly Evans will not run, but former Representatives B. T. Rawlings, of Sandersville, S. L. Moore, Jr., of Statesboro, and Charles Wright, of Louisville, and V. B. Robinson, of Louisville, are making a hard race. Messrs. Wright, Moore and Robinson are conducting correspondence with candidates for representative and senator.

Occanee.
Judge "Cap" Smith, of Hawkinsville, and his opponent, John P. Delacy, of Eastman, are both here with friends, and the man who wins this race will know that he has been in a contest. Both are popular and strong lawyers.

Solicitor General E. E. Eason is one of the fortunate whose terms expire when there is not much of a scramble.

Pataula.
Judge John Hart has two years more. Solicitor General Gray Lewis is without opposition, and so is Eason.

The changes have been swift in this circuit in the past years. Judge Griggs was appointed to fill an unexpired term and after being elected by the general assembly, resigned to run for congress in the second. Solicitor General Henry Sheffield was appointed judge. He has no opposition now, but Solicitor John R. Irwin, who was appointed by Governor Atkinson, will be opposed by Clarence Wilson, of Clay, C. C. Bush and M. C. Edwards, Jr., of Blakely. Clarence Wilson, who will be temporary chairman of tomorrow's convention, canvassed the last general assembly thoroughly. Mr. Wilson has been in the senate and house. Mr. Bush is also an ex-member of the house.

Rome.
Judge W. M. Henry has no opposition. Solicitor General Joe Nunnally is opposed by Messrs. R. Wright, who represented Floyd in the last house. The recent campaign in Floyd for representatives was vigorous, and Mr. Wright is said to have the delegation, or at least two of the three. He came down yesterday and is on the move.

Stone Mountain.
Judge John J. Candler, who recently succeeded the late Judge Edward H. Clark in the last house, has no opposition. Solicitor General William T. Kimball, of Clayton, they have an easy race.

Southern.
Judge Augustine H. Russell, of Thomas, never is opposed. He is so highly esteemed that the field is always clear for him. But it is not so with the solicitorship. H. E. Peoples will not run, but W. E. Thomas, of Lowndes; W. C. Snodgrass, of Thomas; and W. S. Humphries, of Brooks, are in the race, too, but neither he nor Colonel Hill was here during the day.

Mr. Heyward and Mr. Fulton Colville, who are mentioned as candidates for Judge Lumpkin's seat, are here making acquaintances.

Albany Circuit.
Judge W. M. Spence, in the Albany circuit, is opposed by J. S. Bush, also of Camilla. Judge Spence was formerly solicitor.

Chattahoochee.
Judge W. B. Butt, of Columbus, has no opposition, but there is talk of proposing him for congress from the fourth district in the event of a deadlock.

Solicitor General Price Gilbert, who defeated four of five candidates in 1892, has no opposition. Charlton Battle was in the race at one time, but he is now running for the state senate, and will be elected.

Coweta.
Judge Samps Harris, of Carroll, has no opposition.

Solicitor General Tom Atkinson, of LaGrange, is opposed by Luther M. Farmer, of Coweta, the home of Governor Atkinson, the present solicitor's brother. The solicitor is on the ground here and is getting in good work.

Eastern.
Judge Robert Fallgaiter, of Savannah, has no opposition.

The solicitorship of this circuit is a peach worth from \$4,000 to \$5,000 a year, and it was to be expected that the present incumbent, Wallace W. Frazier, would have opposition. Ex-Senator W. W. Osborne, of Savannah, and Walter W. Sheppard, of Hinesville, are also in the race. Mr. Os-

borne is president of the Citizens' Club of Savannah. Mr. Fraser is backed by the Liberal Club. The fight is bitter between these two factions, and the result of the election between them for representatives in the general assembly will influence the election of solicitor. Mr. Fraser has the endorsement of the grand jury in all the counties of his circuit, except one. Mr. Fraser has a strong pull with the boys through the state. This will be one of the most interesting contests before the legislature. Messrs. Fraser and Osborne are both here.

Flint.
Judge Marcus Beck has two years longer to serve, and Solicitor General O. H. Bloodworth has no opposition, hence there is no disturbance in this circuit. Mr. Bloodworth is down, however.

Macon.
Judge William H. Felton has no opposition for his election and made himself solid in this circuit.

Macon has two candidates for solicitor—Robert Hodges and Hope Polhill—and "Bob" Holtzclaw, of Houston county, is in it making a triangular campaign. Messrs. Hodges and Polhill are busy. Both were in the last house, and Mr. Hodges was in the house from 1892 to '94. Mr. Holtzclaw has a wide acquaintance, too, among the public men of the state. John R. Cooper, who has been out and in the race the second time, is out again today. Of course, he may come again.

Middle.
Judge Roger Gamble, of Louisville, has half of his term to serve, but the solicitorship is not going begging. Every county in the circuit has a candidate, but some of the militia districts are yet to be heard from. Solicitor General Beverly Evans will not run, but former Representatives B. T. Rawlings, of Sandersville, S. L. Moore, Jr., of Statesboro, and Charles Wright, of Louisville, and V. B. Robinson, of Louisville, are making a hard race. Messrs. Wright, Moore and Robinson are conducting correspondence with candidates for representative and senator.

THEY WERE ALL FOR BARTLETT

The Sixth District Congressman Received Unanimous Renomination.

POPULAR WITH CONSTITUENTS

And True to the Best Interests of the People.

THE FORMAL NOMINATION YESTERDAY

The Congressman Makes a Ringing Speech, Pledging Continued Support to Democratic Principles.

Macon, Ga., June 24.—(Special.)—A brilliant bimetallic and true democratic Congressman, Charles L. Bartlett, of Bibb, was renominated today by acclamation for congress by the congressional convention of the sixth district, which met in the superior courtroom, in this city, at the noon hour.

Every county in the district was represented. The counties are Bibb, Baldwin, Butts, Fayette, Henry, Monroe, Jones, Pike, Spaulding and Upson, a total of 25 votes.

There was a large audience of spectators present.

Mr. Bartlett, who has been in the race the second time, is out again today. Of course, he may come again.

Middle.
Judge Roger Gamble, of Louisville, has half of his term to serve, but the solicitorship is not going begging. Every county in the circuit has a candidate, but some of the militia districts are yet to be heard from. Solicitor General Beverly Evans will not run, but former Representatives B. T. CAPT. TRAVIS MAY RESIGN

Chief Engineer of the Water Department May Leave Atlanta.

HAS AN OFFER IN NEW MEXICO

For Eleven Years He Has Been with the Water Department.

WATER BOARD MAY KEEP HIM HERE

Captain Travis Has Been Instrumental in the Upbuilding of the Water System.

Captain Travis, chief engineer of the Atlanta waterworks department, may leave Atlanta.

He has been offered a splendid and lucrative position in New Mexico. He has not yet decided definitely to accept the place, but has the matter under advisement.

Captain Travis has been connected with the waterworks department for about eleven years and he is thoroughly identified with the system. By reason of his great work for the city in connection with the establishment of the present efficient department his departure at this time would be looked upon with regret by many.

Captain Travis has communicated the fact of the receipt of the offer to the water board and the matter is under consideration by the board. It may be that the popular chief engineer will be persuaded to remain in Atlanta. Efforts of that kind will certainly be made by his friends.

At the last meeting of the water board a secret session was held and reporters were excluded from the room. The members were reticent when asked afterwards about the session, declining to divulge the nature of the meeting. It is now believed that the board received notice from Captain Travis of his offer and that a committee was appointed to take the matter under consideration. Just what has been done is not known, the members of the board and officials on the inside declining to discuss the affairs of the department.

Captain Travis was asked about the rumor yesterday and he admitted that it was true that he had an offer to go to New Mexico. He was averse to talking about the matter, stating that it was in the hands of the board. He said, however, that the waterworks department, with whom he communicated when the offer was received, about two weeks ago.

"Yes, I have received an offer to go to New Mexico, but have not yet made up my mind about the matter. I have been offered a good position at a larger salary than my present salary and I may accept it. The matter is in the hands of the water board, I presume, as I talked with Mr. Woodward about it some time ago."

"Of course, I would dislike to leave Atlanta after having resided and labored here so long. I love the city and have always taken a special pride in doing what little I could to encourage its advancement. I have watched the city grow from infancy, and it would be painful for me to take leave of friends and associates here. My New Mexico offer is from an immense concern, interested in the irrigation business in that territory, and it is one of inducement over my present place. Of course there are many things to be considered before accepting the place, but from a financial point of view the change would be better for me."

Captain Travis was greatly instrumental in the construction of Atlanta's new waterworks system and much of the credit of the efficient service at present is due to him. He accepted a position with the waterworks department nearly a dozen years ago and has been closely identified with the system since that time. Prior to that time he was with the Western and Atlantic railroad and came to the city's service highly recommended.

It is certain that the water board will not allow Captain Travis to resign if any present place. Of course there are many things to be considered before accepting the place, but from a financial point of view the change would be better for me."

WILL MRS. NOBLES HANG?

STRONG EFFORT BEING MADE TO SAVE HER NECK.

Mr. Thomas Will Go Before the Governor Tomorrow in Her Behalf.

Will Mrs. Nobles hang on August 7th? Since Mrs. Elizabeth Nobles, the Twigs county murderess, has been sentenced to be hanged on August 7th sympathy is again being aroused in her behalf.

On the day that she was sentenced two petitions were presented to Judge C. C. Smith, one before and one after the sentence of death had been pronounced upon her.

In the first it was set forth that Mrs. Nobles was insane, and this statement was accompanied by affidavits from E. H. Fitzpatrick and S. E. Jones, both citizens of Twigs county. The petition further showed that the supreme court had decided that a lunacy trial held before an ordinary was nothing more than a mere inquiry from which there is no appeal, and that the court to allow Mrs. Nobles a lunacy trial by jury before sentence was pronounced upon her.

This motion Judge Smith overruled and Mrs. Nobles was sentenced. The second petition was virtually the same as the first, being accompanied by the same affidavits, and was made after sentence had been passed. In it a motion was made to grant Mrs. Nobles a lunacy trial by jury. This motion Judge Smith overruled and she was sentenced to be hanged on August 7th.

Mrs. J. A. Thomas, of Macon, who is president of the Georgia division of the King's Daughters and who has been in Atlanta for the past few days, was seen yesterday morning in reference to the case.

"Yes," she said, "I often visited Mrs. Nobles while she was in Bibb county jail, sometimes as often as twice in one week. As you know I am a member of the King's Daughters Society, a part of the work assigned to me is visiting the prisoners in the jail."

No, I would hardly consider Mrs. Nobles insane, but her mind certainly, to some extent, diseased, for instance, I have visited her in the middle of the week, and then when I called on her Saturday I would have to tell her my name.

"She is the most ignorant old woman I have ever seen. Why, when she first came to the jail she actually did not know the Lord's prayer and said she had not been inside of a church in thirty years."

"Yes, it is true that she acknowledges that in a moment of passion she offered \$10 to anyone who would kill her husband, and that she did give the negro who committed the murder that amount. But when I go home tomorrow I shall certainly see the governor and make an appeal to him in behalf of the aged woman, who I believe did not actually know the enormity of the crime she was committing."

"You may say for me," said Colonel W. C. hanging on the 7th of August. I intend to fight this case. I have already spent some money on it and some time, but I intend that Mrs. Nobles shall have every chance for her life that the law offers, just as she would have if she were the wealthiest lady in Georgia. I will do this not because she is a woman, but because it is right, and right must rule."

The case is certainly an interesting one, and it is assumed that with the lawyers who are at work upon it and the influence which will be brought to bear Mrs. Nobles will have every chance for her life.

HE STOLE A HORSE.

T. A. WILKERSON LOCKED UP ON A SERIOUS CHARGE.

Had Just Finished a Sentence in the Penitentiary for a Similar Offense.

T. A. Wilkerson, a middle aged white man, occupies a cell at the station house on the charge of horse stealing. He is accused of having stolen a fine horse from Captain Ed Cox, who lives on the Howell mill road, four miles from the city.

Wilkerson was arrested in Windsor yesterday morning by Marshal J. O. Hodaway, of Lawrenceville. The prisoner was brought to Atlanta yesterday morning and locked up in the station house and came to the city's service highly recommended.

Wilkerson, when first arrested, denied that he had stolen the horse, but afterwards made a full confession. His only explanation of the affair is that he was drunk at the time, and did not know what he was doing.

His Second Offense.

This is not the first time that Wilkerson has been arrested and locked up on the charge of horse stealing.

He was released from the state convict camp at the Dade coal mines only about three weeks ago, where he had served four years on this same charge. His sentence was for a much longer period, but he was pardoned by the governor for good behavior.

Before Wilkerson was pardoned Captain Cox, from whom this last horse was stolen, was superintendent at the mines. He was a proud of Wilkerson, and recommended his pardon, which was granted.

Was Employed by Cox.

As soon as Wilkerson was released he went straight to the home of Captain Cox, on the Howell mill road, and asked his old employer for a job.

Captain Cox at first refused to grant his request, but afterwards he changed his mind and put the man to work on his farm.

Wilkerson worked faithfully for three weeks. It was his duty to attend to the horses and stables. Last Wednesday night he decided to take into himself the captain's horse, a bay horse, and accordingly at 8 o'clock he entered the stable and rode off.

The authorities were successful in catching him until yesterday, when he was arrested in Windsor. Captain Cox will prosecute.

Wilkerson had swapped the horse in Lawrenceville. The animal was recovered. The prisoner is a single man, and states that his home is in Augusta, where he is a cattle dealer and a respectable citizen.

WHERE BRAINS SCORED.

A Manufacturer Had an Idea, Used It and Wins Success.

Trade may be dull, business conditions poor and competition keen, but there is always a premium on ideas and a market for something new. If you are inclined to doubt this all that is necessary to convince you is to see a visit to the mammoth Helfrich Steam Candy Works at Macon, the busiest scene in Georgia today.

Mr. Helfrich was a good business man, an experienced candy manufacturer, and doing a nice business, but being young and enterprising was not satisfied to plod along the wornout paths of competitors, and used his brains to find a more certain and attractive avenue to success, and he found it. He invented a unique little candy, called "All-Day Sublimers."

Today the peculiarly shaped little morsels of the "All-Day Sublimers" are being sold in the south, and Mr. Helfrich's factory at Macon is running at full speed. It cannot keep up with the orders. More than 8,000 suckers are now made daily.

The Helfrich Steam Candy Works occupies three entire stores and a basement of a large building and is equipped with the very latest steam machinery for making high-grade candies. Helfrich's candies are shipped from Virginia, Alabama, and rank as a prime favorite throughout the higher grade of goods at the Dixie Interstate fair over all competitors. They are strictly high grade, high flavor, pure, palatable and wholesome; made with the latest and best machinery by skilled candy makers and in the neatest and cleanest factory in the south.

TAX BOOKS TO CLOSE

No Returns Can Be Made After Next Wednesday.

COMMISSIONERS TAKE ACTION

They Say Taxpayers Who Are Delinquent Will Hereafter Be Doubled Taxed.

The tax payers of the county have but six more days in which they can return their property.

The books will positively close on next Wednesday and those whose names do not appear on the return list will be put down for double taxes, and the county commissioners will see that this rule is carried out to the letter.

In former years it has been the custom of Tax Receiver Armistead to allow tax payers to make returns after the time the books closed, and many have taken advantage of this courtesy, and if they had not returned their property they would call at the office at almost any time and the matter would be arranged.

A few days ago the finance committee of the county commissioners held a meeting and a resolution was passed requiring Mr. Armistead to close his books promptly on the first day of July, and to make a report of all delinquents. Those who have not returned their property by that time will be double taxed for the year, and there will be none of them excused from the payment.

"The tax payers of Fulton county," said Commissioner Forrest Adair yesterday, "have grown careless about the matter and seem to think they can return their taxes at any time of the year. Now there is a day for the books to open and a day for them to close. In the past we have allowed the books to remain open longer than the law says, and the law has consequently become a dead letter."

A few days ago we looked over the returns and saw to our utter amazement that the returns this year are several thousand short of those of last year. This is all on the account of the custom of allowing the books to remain open after they should be closed."

Mr. Armistead was not at his office yesterday, but the commissioners had previously notified him that all returns must be made by Wednesday, and he will carry the instructions out.

About half of the taxable property has been returned and make up a mistake. Many returns are as yet unfilled, and Solicitor O'Neill does not believe the justice court has any right at any time after a warrant is taken out to make a return. And it was this director of opinion that caused a lengthy discussion in the courtroom yesterday. Several days ago a negro woman named Mary Williams swore out a criminal warrant in the justice court of Judge Foutte, charging Ellen Johnson with assault and battery.

The case was heard before Judge Foutte, and upon the evidence the Johnson woman was bound over in the sum of \$200, but being unable to give bond in this amount, the woman was remanded to jail.

The next day the parties at suit arranged for a settlement, and the prosecution decided to withdraw the warrant if the Johnson woman would pay her \$10. It is said the \$10 was paid, an attorney representing the prosecution, but that he pocketed the money and never delivered the warrant.

The warrant was then dismissed, it is said, by Judge Foutte, and he ordered the Johnson woman released from jail. The jailer refused to do so, and Judge Foutte is said to have written an order to the jailer authorizing him to turn the woman loose. The order was obeyed and Ellen Johnson was released from jail yesterday.

Since her release the prosecution has taken out an accusatory complaint against her, and this was heard yesterday before Judge Berry, and the history of the case was shown. Judge Berry took the position that the woman was bound over to him in ordering the release of the woman after she had been bound over to a higher court, and he did not think the magistrate had any authority to dismiss the warrant at all, and Judge Foutte was sent for.

Judge Foutte stated that he believed he had done his duty, and that he was not bound to do so. He said it was no unusual circumstance to effect a settlement in the justice court, and that he was not bound to do so. He said the signature, "said Judge Foutte," "Suppose two people have a difficulty. In the heat of passion one swears to the other that he will do him wrong. The next day they renew their former friendship and the matter is dropped. In ordering the release of the woman after she had been bound over to a higher court, and he did not think the magistrate had any authority to dismiss the warrant at all, and Judge Foutte was sent for."

GRADUATING CLASS GEORGIA SCHOOL OF TECHNOLOGY.

THEY GO FORTH TO SEEK SUCCESS

The Young Men Step Into the Ranks of
Life's Soldiers.

READY TO DO LIFE'S BATTLES

The Graduating Class Leaves the
Tech.

REPRESENT FOUR YEARS OF HARD WORK

Address by Colonel Cox—Baccalaureate Address by President
Lyman Hall.

After four years of hard study ten bright Georgia boys were presented with diplomas and turned out of the Georgia School of Technology to begin the battle of life yesterday.

The crowd that gathered at the school yesterday morning was by far the largest that has ever visited the school and witnessed the graduation exercises.

The programme presented was one of the most complete ever witnessed and every participant won for himself new friends.

The members of the commission who were present were greatly pleased with the work of the young men and felt that the school they represented.

The scenes around the school yesterday morning were those to be seen only on occasions of this kind.

The young men were seen walking proudly about in the reception hall, carrying bouquets of flowers to be presented to their favorites at the proper time.

Every young man was rushing and getting ready for the greatest day of his life.

The shops were thrown open to the visitors in the morning and they crowded to see the young graduates at work.

The young men, in their greasy overalls, presented a very picturesque appearance, and it was noticed that when the ladies passed they were all busy looking at their work and kept their faces averted.

They were at work in all the departments and the kind of work that they do every day of the year.

When the shops closed the visitors turned their attention to the different rooms and laboratories of the school.

These were given a thorough inspection by the members of the graduating class. Only two of these exercises were given.

The exercises were given in the morning, followed by the reading of the baccalaureate address.

CAPT. LYMAN HALL SUCCEEDS HIMSELF

Unanimously Elected to the Presidency
of the Tech.

HIS RECORD WAS FINE

He Had Served Six Months of an Un-
expired Term.

THE TRUSTEES IN SESSION SIX HOURS

Interesting Day's Work Done at the
School—Captain Hall's Interest-
ing History.

Captain Lyman Hall won the presidency of the Technological school yesterday. He was given the place on the record which he made during the period of less than a year during which he filled the unexpired term of Dr. I. S. Hopkins. It was understood that he was put on trial and the result of the vote yesterday shows that the trust had been satisfactory to the trustees.

The race for the place was very warm. For several hours the battle for the presidency was fought in the board meeting. What occurred is not known, but Captain Hall was triumphant and his election was made unanimous.

After a session lasting six hours the board of trustees unanimously elected Captain Hall president of the institution for another year. At the meeting the commission planned the work of the next year, received the president's report for the past year and completed other business of importance.

During the six hours meeting by the trustees.

During the six hours meeting by the trustees.

The race for the place was very warm. For several hours the battle for the presidency was fought in the board meeting. What occurred is not known, but Captain Hall was triumphant and his election was made unanimous.

After a session lasting six hours the board of trustees unanimously elected Captain Hall president of the institution for another year. At the meeting the commission planned the work of the next year, received the president's report for the past year and completed other business of importance.

GREAT FACTOR IN EDUCATION

Something of Its History and Present
Condition.

HOW IT HAS GROWN AND PROSPERED

The New Building—The Elegance of
Its Appointments—Who Com-
pose the Faculty.

The magnificent new building of the Georgia Female Seminary at Gainesville, a cut of which is here shown, is rapidly going up and will be completed ready for the opening in September. The building was designed by Mr. G. W. Foote, of Atlanta, and does him and Atlanta credit.

The seminary has become such a factor in the educational world that it will interest the public to know something of its history, and of its present condition.

It began its existence in 1878, with Dr. A. W. Wilkes as its first president. In a magnificent oak grove ten acres were purchased and set apart and the first building, a square-cornered brick structure about 70x40 feet, was erected.

Some little wooden cottages were erected about in the grove, where some of the girls lived and did their own housekeeping and cooking on the co-operative plan.

Dr. Wilkes lived up on Green street, in a large house, burned a year or two ago, and boarded some of the girls there.

Many were the hindrances of the budding institution, and sometimes it seemed as if the frosts of adversity would nip it in the bud. But a wise and beneficent providence was ever watching and strengthening the arms of those who upheld the struggling institution.

In 1886 Dr. Wilkes died and it seemed that the final blow had fallen and that the institution was doomed. But such proved not to be the case.

Professor A. W. Van Hoose, then teaching in the old Gainesville college, which has since become the public school of Gainesville, agreed with the trustees to take upon himself the burdens of the school and to devote the energies of his young manhood to the development of its interests.

A New Era.

This period marked a new era in the history of the institution. From this time the institution grew and prospered. With the increase of patronage came additions to the building.

In a few years the old building was improved and increased in size, and turned into a boarding department for the girls, and a new building with a large chapel on the first floor, and recitation rooms on the second and third floors, was erected.

In 1892 the board had increased to over fifty, until the then accommodations were crowded, and Professor Van Hoose was confronted with the necessity of more and still better buildings.

Seeing in the Constitution about that time an account of the proposed erection of a large college building in Columbus, Ga., by Professor H. J. Pearce, then president of the Columbus college for young ladies, he wrote to Professor Pearce, setting forth the advantages of Gainesville as a location for a great institution and inviting him to come to Gainesville and join forces for the purpose of building the greatest school for girls in the south.

After several visits to Gainesville and seeing the advantages which Gainesville possessed as a location for a great school, Professor Pearce decided to give up his plans in Columbus and cast his lot with the seminary at Gainesville.

Subsequent events have proved the wisdom of his choice. Every year has shown a marked increase in the foreign patron-

age of the school, until during the past season about 115 girls from a half dozen or more states have quitted from the "Piedmont spring" within the seminary walls.

The large three-story structure erected in 1893 has been taxed to furnish accommodations for the large increase in patronage.

Realizing the necessity for still more and still better accommodations the management assisted to the amount of nearly \$10,000 by the generosity of the people of Gainesville, have begun the erection of another.

New Building.

which, in point of architecture, design and elegance of its appointments, will be equal if not superior, to any similar building in the south. In fact, it is doubtful if there is a similar building in the south. It consists of a handsome auditorium with a seating capacity of 1,200, arranged after the most approved opera house plan. The entrance to the loggia is supported by five marble columns; the loggia is marble tiled, and the walls largely of marble.

Marble blocks for the purpose were furnished by friends throughout this and other states, and the names of the donors are to be engraved on the blocks. Besides the auditorium this building contains thirty-five practice rooms and rooms for music teachers and art rooms.

Over the stage we find the

Gymnasium.

a large room fitted with modern appliances, and to be presided over by a teacher competent to instruct in their use. Passing down a flight of stairs from the gymnasium we find ourselves in the

Large Natatorium.

This is a large four feet deep and 40x25 in size. It is surrounded by convenient dressing rooms and shower baths. The water, as well as the room, will be heated in winter by means of steam pipes. This room will also be in charge of a teacher, who will see that no excess or imprudence will be indulged in. Adjoining the natatorium is a splendid bowling alley.

The front of this building presents a very handsome appearance. It is of red brick, trimmed with stone and terra cotta.

The former chapel is being changed into recitation rooms, to meet the increasing need of the literary department.

The Faculty.

of the school is a large and composed of teachers of marked ability in their several departments. The majority of the teachers have been in the institution for a number of years and need no introduction to the public.

Miss Norrine Cochrane, of Tennessee, has been elected to the chair of elocution and physical culture, and Mrs. J. H. Simonds, of Michigan, to the department of vocal culture. A very valuable addition of another male member of the faculty has been made in the person of Professor J. H. Simonds, of Michigan.

Professor Simonds is not only an artist, but a composer of considerable experience and reputation. It is firmly believed by the management of the seminary that the introduction of Professor and Mrs. Simonds into Georgia will be a marked addition to the musical talent in the state. It may be stated in this connection that Professor Wallace, who for five years has directed the music department, retains his position.

Instruments.

A large two-manual pipe organ is now being built by John Brown, of Wilmington, Del., and will be placed in the auditorium as soon as completed. The pianos of the school are first class, nearly all of them being almost new. They are tuned and repaired at regular intervals.

The Orchestra.

is still a prominent feature of the school. The regular meeting of the orchestra, to be held almost every night, is the largest and most complete bona fide school orchestra in the United States.

Mayor King at the Seaside.

Mayor King is spending a two week vacation at the seaside at Morehead City, N. C., the celebrated resort of that city. He will return home in time for the regular meeting of the council, to be held on July 6th, the first Monday in the month. During the absence of the mayor, Mr. J. W. Hirsch, mayor pro tem, is filling the municipal chair of honor. Captain Doc Moon is having a lovely time of it at the city hall, the absence of the mayor and several councilmen having caused a temporary lull in public business at the city hall.

Lieutenant Haynes Resigns.

Second Lieutenant Clyde Haynes, of Company D, Fifth Infantry, tendered his resignation to Colonel Chandler yesterday. He resigned for the reason that he was unable to do his duty. He has been connected with the volunteer military of the state for several years and made a splendid record.

OPPIUM AND WHISKY HABITS

SUCCESSFULLY TREATED BY

DR. B. M. WOOLLEY,

104 I-2 WHITEHALL STREET, ATLANTA, GA.

Read What Those Say Who Have Been Cured.

The man whose life and energies are devoted to the relief of human suffering deserves a grander monument than he who conquers kingdoms and builds up great empires.

Such a man is Dr. B. M. Woolley, who has been for twenty-five years engaged in the noble work of alleviating and rescuing people from degradation and the jaws of death. His work will live after him and his name will endure for the good he has accomplished in this glorious cause. When he began the treatment of the opium and whisky habits, of which he has made a life-long study, he never dreamed of the magnitude to which his future work would attain, but his success brought to him constant encouragement, until today thousands of men and women throughout the land rise up and call him blessed.

Four years ago he became associated with others under the name of the B. M. Woolley Company, and today their business at 104 1/2 Whitehall street, Atlanta, Ga., where they are elegantly located, has grown to mammoth proportions. Dr. Woolley has with him Dr. F. L. Dennis, in the medical department, a gentleman who has made an extensive study of the subjects in hand, and a complete corps of assistants to look after the business details, who are kept busy all the time answering correspondence and looking after the various branches of the business.

His treatment is based on logical and scientific principles, and is successful in every instance where it is followed up till a cure is effected. Volumes might be filled with certificates and endorsements from every section of the country attesting to the benefits derived from the treatment.

Some of them are pathetic in their expressions of gratitude and thankfulness for what has been done for them by the great remedial agent, the Woolley Opium and Whisky Cure.

Men and women who have been brought

right down to the lining of destruction through the effects of opium and whisky have been cured, redeemed, restored to their families and to a life of usefulness and happiness. Many men are today occupying positions of honor and trust who had descended to the very dregs of human depravity through the baleful effects of these accursed drugs, and who would today be either dragging out a miserable existence in the depths of degradation or filling drunkard's graves, but for the saving power of these great remedies. And still the grand work goes on with increasing influence for good as its virtues become more widely disseminated.

One of the beauties of the treatment is that it causes no shock to the already enfeebled constitution, and leaves behind it none of the deleterious effects observed in some treatments. It absolutely eradicates all taste and desire for the use of stimulants or opiates, builds up and restores the system to its normal condition and leaves the man or woman happy in the possession of all the faculties of a healthy human being.

Read This Letter.

Sardis, Miss.—Dr. B. M. Woolley, Atlanta, Ga. Dear Sir: I have recommended your medicine to a great many who have tried it with success. I have never heard of its failing in any instance. It cured me effectually about four years ago after about thirty years' excessive drinking of stimulants. I regard your cure as one of the strongest tests of the virtue of your medicine, because my wife procured it at the time and gave it to me in doses according to directions, without ever letting me know what it was or where it came from; and I only took it to gratify her, unaided, therefore, by any will power of my own or expectation that it was to cure me; and since taking the first dose of your medicine I have never tasted a stimulant of any kind, nor have I had the slightest inclination to do so.

You may use my letter as you see proper. Very truly and gratefully yours,

W. D. MILLER, Attorney at Law.

Has Used No Opium or Whisky Since 1892—A Physician's Experience.

Sardis, Miss.—Dr. B. M. Woolley, Atlanta, Ga. Dear Sir: Replying to yours of May 8th, I will say that I have not taken a drink of wine, whisky, cider or beer since December 1, 1892, the day I began the use of your medicine, and have no desire for drink of any kind. As you are aware, I was also somewhat addicted to morphine. I am truly glad to say that I have had no occasion to take an anodyne of any kind from then until now. I do not think I will ever resort again to whisky or morphine, if I retain my present senses and surroundings. I am fully satisfied with your treatment in both respects, if backed up with a reasonable amount of will power and desire to quit their use. My general health is as good as it ever was, and in some respects better. When I began the use of your remedy I was a physical and almost a mental wreck, but now my body appears to be sound and my mind as clear as ever, and I think much wiser as regards the foolishness of drink and opiates out of place. It is to be presumed that a man of my profession should know something of the evils of both, and more especially when he has gained his knowledge both from theory and personal experience. I never prescribe whisky now, and am very cautious as to the use of opiates. You can rest assured that I have no desire to get any man into the clutches of either; upon the contrary, the unfortunate victims excite my tenderest sympathy and honest desire to help them regain their health. I have referred several to you, and have heard of a failure if it was fairly tried. As you are aware, it is contrary to our ethics to write testimonials for secret remedies, but honesty constrains me to say that your treatment has proven eminently satisfactory in my case, and I feel it to be my duty to help you in my feeble way to treat others, and lift them from the mire of destruction and place them

upon the solid rock of abstinence. And now with success to you and your medicine. I beg to subscribe myself as your obedient servant,

W. E. HENDERSON, M. D.

Once More a Free and Well Woman.

Bonner, Tex.—Dr. B. M. Woolley, Atlanta, Ga. Dear Sir: You no doubt think I am a long time in letting you hear from me, but I wanted to wait a while after leaving off your treatment to be sure of a cure. I left it off three weeks ago, and thanks to you and my God, I am proud to tell you that I am once more a free and well woman. Am in better health than I have been for years; am satisfied had it not been for you today, would have been in my grave. I cannot say enough in behalf of your treatment, and when I look at my children and think of how near they came to being orphans, I shudder, and pray to God to bless you and yours. I had no trouble much in leaving off your medicine. For a night or two I could not get right off to sleep, but that soon passed off. Now, doctor, if this letter in my name will do you any good you are more than welcome to use it, for I want to do all I can for you. May God keep and bless you, doctor, is my prayer. Your friend,

MRS. M. HARPER.

Used One Bottle of Morphine in Six Days—Now Entirely Cured of the Habit.

Newnan, Ga.—This is to certify that I have been under the treatment of Dr. B. M. Woolley for the habit of morphine. I went to Dr. Woolley on the 1st day of September, 1892. At that time I was using one bottle of morphine every six days for an old wound in the head; though I could not live without it, but at the same time saw that it was fast taking my life from me. When I commenced taking Dr. Woolley's medicine I weighed ninety-six pounds, and my life was no satisfaction to me, but in a short time I saw that the gloomy days were passing away, and in seven months I was entirely cured of the morphine habit.

I now weigh 146 pounds and am in better health than I have been in five years. I advise all persons in the morphine habit to try Dr. Woolley. He can surely cure you as he cured me. P. M. McLEARY, Newnan, Ga.

I Have No Desire for Opium Now—I Was Confined to My Bed Eight Long Years, but Am Now Cured.

Lois, Ga.—Dr. B. M. Woolley, Atlanta, Ga. Dear Sir: It is with great pleasure that I attempt to write you this morning. I desire to express my sincere gratitude to you for your wonderful cure. Yes,

I am happy to tell you that I am entirely cured of the dreadful opium habit. Oh, that I could find words to express my feelings to you; but, alas, pen fails to describe or tongue to tell of the joy that it is to me to know that I am freed from an opium grave. I wish to say to you that when I commenced your treatment I would rather have been dead than living, for I had been confined to my bed for eight long, weary years with rheumatism; could sit up but very little, and could not stand on my feet or raise up or down in my chair or off my bed. I had not been out of my room during this time, only when carried out in my chair or assisted by two persons. During the eight years I was in such an awful condition that I could not rest day or night, had to be turned on a sheet every five or ten minutes for a week or two, when my physician thought me to be in a dying condition; and to alleviate my sufferings he gave me opium without my parents' knowledge. I continued to use it, not knowing the awful condition it would put me in, until I was the most miserable person you ever saw, and had despaired of ever being anything but a trouble and drawback to my dear family the rest of my life. And many nights have I retired, wishing that it could be God's will for me never to rise again in this life; that I was tired of living and longed to go and leave this world of trouble. When I had used it four years I got so bad off that I could not stay on my bed; for six weeks had to sit up day and night in a rocker, could sleep but little. Then I heard of Dr. B. M. Woolley's grand opium cure, and wrote to you with little hopes of ever being cured of the awful habit. But, thanks be to God, I soon got a reply stating to me that you thought you could cure me, and I sent at once for a month's treatment. I soon received the antidote and began taking it according to directions, feeling that I would be sure to die when I quit the morphine and opium, but I was determined not to touch any kind of stimulant and that if I died it would be right. So I set in with a resolution to bear all that was put upon me, and then I weighed only ninety pounds. I began to improve at once and in three months I could get up out of my chair, which I had not done in eight years. I slept on my bed the first night and had rest as good as any one could wish. I could stand on my feet all day and work the most of my time. When I had not worn a shoe for eight years, I now wear them and they do not hurt me. I now weigh 125 pounds and gain strength and weight every day. My general health is better than it has been for twelve years. I took your antidote for one year. It has now been seven months since I stopped the treatment. I have no desire for it or opium since, and I do not feel now like I needed anything at all.

I desire to beg you to excuse me for not writing you sooner, as I have been out from home for some time on a visit, and when I am home it seems so good to be so long work until I neglect my writing. I hope you do not think that I intended to tell you a falsehood about giving you a certificate. This was my intention when I began your treatment, to give you the honor for what your antidote did. If it cured me; and I have not a doubt upon my mind today that I am cured sound and well. There are so many people who know how badly afflicted I have been, and also such a slave to the opium habit that I desire for them to know that I am cured and that it was your treatment that did it. I cannot say enough in praise to you for your wonderful medicine and your kind attention while I have been under your treatment. Oh, that it could reach every poor suffering person on this earth, for surely it is all that you claim for it, or at least, it has proven to be in my case. I had been so I could not lie on my right side for eight years until I began your treatment, now I lie on it and rest all night. Doctor, if you think this will be of any benefit to you you are at liberty to use it in any way you wish. Oh, may you long live to gladden the hearts and brighten the homes of poor suffering humanity for surely my home seems not like my own. There are many who would not give a certificate for an opium cure, but nevertheless I desire to do as I promised to do, for you have done me more good than all other doctors, so I desire to make it known to you and the public. I will do all I can for you, God knows I will. So I will close. May you live long and go on with your good work in the future, and I will be sure to send you your life be one of pleasure as a reward for your good work here on this earth, and may your last days be your happiest ones, and at the same time may the dews of death be falling fast around you, oh, may you have a sweet and peaceful hour in which to die—is my prayer. I remain, dear Sir, your true and devoted friend until death, MISS ALICE PARRISH.

I Do Not Feel the Want of Morphine or the Antidote.

Sardis, Miss.—Dr. B. M. Woolley, Atlanta, Ga. Dear Sir: I am now ready to say that I do not feel the want of morphine or the antidote. I commenced taking your antidote the 25th of September, 1892, and never had the least desire for morphine after taking the first of your medicine. I have quit it (the medicine) three weeks and am still improving, and I am almost as stout as I ever knew myself to be. I want to say to those under the bond of morphine to send and get Dr. Woolley's antidote and be cured. I do not know words in which to express my thanks to you for doing for me what heaven for the wonderful miracle that has been wrought on me. Let me say your medicine will do all that you say, and more besides. If all who have morphine do not believe it, let them try it and see. Respectfully,

MRS. M. J. JACKSON.

No Desire for Morphine—Cured. Health Better Than Ten Years.

Indianola, Miss.—Dr. B. M. Woolley, Atlanta, Ga. Dear Sir: I can say that your morphine antidote, in my case, has done all that I could desire for it to do, and a great deal more. I quit using your medicine about February 15, 1895, and have no desire for morphine since that time. My health is better than it has been for ten years. You can do as you think best with this letter for you and for all sufferers from the morphine habit. Your friend,

F. C. EDWARDS.

It Is Wonderful What Your Cure Can Do.

Calhoun, N. J.—Dr. B. M. Woolley, Atlanta, Ga. Dear Sir: I am happy to write you that I am cured of the morphine

habit. I would have written you long ago, but whenever I would start to write I would get busy in my shop. I am now, since I stopped taking your cure, in my work well. I never stopped working since I took your cure. You can use my name if you want to do so. It is wonderful what your cure can do. Yours truly,

A. HENRY.

I Am Cured of the Morphine Habit.

Williamson, Ga.—Dr. B. M. Woolley, Atlanta, Ga. Dear Sir: Pardon me for writing sooner. I am cured of the morphine habit, and wanted to send you word. Have not tasted any morphine since January 24, 1894, the first day I ever took it. I did not take quite all of the tenth bottle of your medicine, but I tasted any of the medicine since I took the last. I could tell you more than I can write. If I ever come to Atlanta I will come to see you. I am always glad to hear from you. You can use my name if you wish. If you really think it will benefit any one, I remain your friend until death. O. A. STUBBS.

After Using Opium Twenty Years and Failing with All Others, Was Cured by You.

116 King Street, Montgomery, Ala.—Dr. B. M. Woolley, Atlanta, Ga. Dear Sir: I am now ready to say that I am cured of the morphine or the antidote. I commenced taking your antidote the 25th of September, 1892, and never had the least desire for morphine after taking the first of your medicine. I have quit it (the medicine) three weeks and am still improving, and I am almost as stout as I ever knew myself to be. I want to say to those under the bond of morphine to send and get Dr. Woolley's antidote and be cured. I do not know words in which to express my thanks to you for doing for me what heaven for the wonderful miracle that has been wrought on me. Let me say your medicine will do all that you say, and more besides. If all who have morphine do not believe it, let them try it and see. Respectfully,

MRS. M. J. JACKSON.

I Ate One Bottle of Morphine in Six Days—My Life Was a Miserable One.

Oak Lodge, I. T.—Dr. B. M. Woolley, Atlanta, Ga. Dear Sir: I beg your pardon for not writing to you sooner, but so thankful that I have been relieved of one of the worst habits that a man can have, that I have not had time to do so. I took one bottle of your medicine, and I am now cured of the morphine habit. I am now in good health, and I am almost as stout as I ever knew myself to be. I want to say to those under the bond of morphine to send and get Dr. Woolley's antidote and be cured. I do not know words in which to express my thanks to you for doing for me what heaven for the wonderful miracle that has been wrought on me. Let me say your medicine will do all that you say, and more besides. If all who have morphine do not believe it, let them try it and see. Respectfully,

JAMES McREYNOLDS.

HOMES OF MR. DAVIS

Where the Distinguished Southerner Resided in Washington City.

DURING HIS POLITICAL LIFE

Interest in the Great Statesman Revived by the Approaching Ceremonies at Richmond.

From The Washington Post.

In view of the fact that the first reunion of the confederate army takes place this month at Richmond, and that some will then be taken toward erecting in that city a monument to Jefferson Davis, who was for several years president of the confederacy, the landmarks and scenes which intimately connected with his history are now of unusual interest. The houses in which he made his home during the stirring days of the war are beautiful and many of them are just as they were in the time when the country was about to plunge into the horrors of the civil war. Davis' first home in Washington, where he had resigned from the army, was in 1853, and he was then in poor health, induced by a long spell of fever and the death of his young wife. The Tiber was a rough house about as hundred yards northeast of the present senate chamber, and had for companions many old promiscuous members of the day. He was on this visit that Dr. Davis, while in company of Senator Allen, of Ohio, fell into the Tiber, accidentally, and cut his face severely. The Tiber was a small stream, and Washington then had not become the beautiful city of today, in which are obliterated the sights and sounds of rural life.

After his second marriage and his election to congress, Mr. Davis took up his residence at the National hotel, which stands on the corner of Pennsylvania avenue and Sixth street. Here he and his wife met the most prominent people of the day, among them being the beautiful and famous Mrs. Myra Clarke Gaines, Mrs. James Gordon Bennett, and the lovely Miss Woodbury, afterwards Mrs. Montgomery Blair. Bodisco was then the Russian minister, and had just married the pretty Georgetown girl, whose great-granddaughter, Olga Bodisco, was a few days ago one of the maids at the coronation of the czar. Mr. Lincoln was then a member of congress and Mr. Buchanan the secretary of state.

Rooms Adjoining the National Hotel. After ten days at the National hotel Mr. Davis and his second wife took rooms in a near-by house on the avenue, going with them, Mr. Davis brought with him a "congressional mess," a large number of members taking a house and forming congenial company of the same political faith. It was while in town during this period that the first telegraphic message was sent, it being the first regarded as a trick.

In 1865 what was known as the "National exhibition" was given in a large, rough room, occupying two squares on C street in the neighborhood of the city hall. While at this exhibition with her husband, Mrs. Davis made her first acquaintance with the sewing machine of that day, a crude affair, which was looked upon with contempt by all good and conservative housewives. The Davis family at this time lived in very simple style, keeping no carriage, and, as the town was so widely scattered, Mrs. Davis had but few social calls on her friends.

Some years now elapsed before Davis again visited Washington, and on his return in 1867 it was as senator from Mississippi. The session opened in December, 1867, and in a short time Senator and Mrs. Davis were domiciled in a house adjoining the Na-

tional hotel, crossing a small bridge to get into the hotel dining room. Mr. and Mrs. Toombs, of Georgia, were also stopping at the same place and sharing the same table with the Davis family.

In 1853 Mr. Davis was called to the position of secretary of war by president Pierce, and, on returning to Washington, he installed his family in a house on Thirteenth street. The old war department then stood on the ground now occupied by the large building recently erected, and was an unattractive house of brick.

Construction of the Aqueduct. It was during the term of office of Mr. Davis that a fine stone aqueduct was built to Cabin John bridge, this being one of the most remarkable feats of engineering in the world, as the stone span is the longest in existence. It was capable of delivering 70,000,000 gallons of water at a head of fourteen feet above the capital floor.

When the work was finished, the name of Davis was inscribed on one of the huge stones, but after the secession of the south the name was obliterated by order of some prominent official in Washington. The wings of the capitol were also added about this time, and when the work was finished, and was an unattractive house of brick. The wings of the capitol were also added about this time, and when the work was finished, and was an unattractive house of brick.

This house stands today in the center of the busy part of town, and so somber and plain is it in its outward appearance that few of those passing by would ever notice the mansion. The house had twenty-three rooms in all, and was at that time one of the most elegant and spacious mansions of the capitol. Society then was not up to the present fashionable standards, but hospitable and comfortable. The day, though the little floral decorations was done, and the luxuries of the end of the century were altogether unknown. Yet Washington was full of famous people, conspicuous among whom was Charles Sumner, whose handsome form and brilliant mind made him much sought.

Pierce's Fight with the Storm. President and Mrs. Pierce visited frequently at this house, and here it was that the second son of Mr. Davis was born, just before the close of the administration. It was during this winter that the famous snow, which drifted to the height of six feet, occurred and hearing that Mrs. Davis was confined to her room with a dangerous illness, Mr. Pierce fought his way through the storm to ask how she was, saying that he would not trust his servants.

Another house which has been occupied by the Davis family is the pretty little country place, known as Cliffburn, which is just out in the suburbs on the line of the electric road to Chevy Chase. Here it was that the secretary spent the summer for one season. It is also said that the old war record building was once occupied by the Davis family, but no note of that fact is found in any of the old papers, while the other homes are all mentioned. Hence it is likely that the house on F street is the one in which Davis lived when he resigned from the senate in 1861.

For the State Convention. Round trip tickets from all stations on Southern railway to Macon, June 24th, 25th and 26th. From Atlanta \$1.25 round trip. Tickets good returning until July 31st. Southern railway trains leave Atlanta 7:30 a. m., 4:15 p. m. and 8:35 p. m. Tickets on sale at Kimball house corner and union depot.

WHAT IS WORSE THAN DEATH?

Mrs. Henry Ward Beecher and Robert Ingersoll Reply to This Question.

From The New York Journal.

What is worse than death?

Is death the most horrible and instinctive dread of human calamities?

Before I consulted with a half dozen or so of New York's eminent people I considered the giving up of this life the most undesirable thing on earth, and now, really, I think so still.

Colonel Robert G. Ingersoll was the first person to write me the query: "What is worse than death?"

I had to wait a long time down at his law office at 40 Wall street, but he came at last. He looked at me, and I looked at him. "What do you think worse than death?" he inquired.

"Oh, a great many things," he answered. "Wait and I'll write them down."

"After he had finished he handed me the paper and I read: "What is worse than death? To be dishonored. To be worthless. To feel that you are a failure. To be sane. To be constantly afraid of the future. To lose the ones you love."

"Does that suit you?" he asked.

"Wait," I said, "you mean what you have written. You know there is still hope so long as there is life."

"And when death comes there is no hope at all," he inquired.

"Well, certainly one cannot go on with the hopes and aspirations of this world after death. Don't you think this a beautiful world?"

"I certainly do, yes. I should hate to die," he said, frankly. "It is better to live and be happy—and every one is bound to be happy in this world. No one can be truly miserable for any great length of time. Life is the sweetest thing on earth, after all. It is sweeter than most people realize, and death—oh, we're an awful long time dead!"

Mr. Henry Ward Beecher was the next person I called upon.

"Then," he said, "would be, 'would be a blessing. I am waiting for the Lord to call me home, for I am prepared to go. I have nothing to live for now, for I am of no earthly use."

"Don't say that," I interrupted, but she did not heed me, and went on as if talking to herself.

"My dear husband and nearly all my children have gone before me, and I want to join them. I am an old, old lady. I have lived my life, and now I wait death eagerly. Then, as I recall my presence, she added:

"When you become old like me you will then welcome death as I do as a sweet haven of rest. Blindness to me is the worst thing that can befall a human being. Not to be able to see the ones we love, nor the birds and the trees and bright flowers. Ah, my dear, blindness is dreadful." And she covered her almost sightless eyes with one faded hand.

Albert Chevalier, when I asked him the same staggering question, stuttered for several seconds.

"Well, er—er—er—never thought much about such things." He fouled his arms, cocked one eye and blinked at the ceiling. Finally he said: "Why, death isn't so terrible, is it?"

"I'm sure I don't know," I answered, quickly. "I've never tried it."

"Then you think you will be all right dying," he said, then he looked at me and said: "You wouldn't in the least mind giving up this life and all the beautiful things in it and renounce all your successes and good times and be laid away in the cold earth and not be at all sure what would happen next?"

Chevalier shifted his position and smoothed his hair just as he does on the stage. Then he said: "Yes, when one comes to think of it in the light that you do, there is nothing very alarming about it. As long as one has one's health and good success life is very pleasant."

ENTHUSIASM IN COLORADO.

Senator Teller's Conduct at St. Louis Universally Approved.

Special In The Washington Star.

The news of the action of Senator Teller and the Colorado and Idaho delegations in withdrawing from the national republic convention has been received throughout Colorado with great enthusiasm. In Denver there will be a demonstration when Senator Teller returns, which will be by Thursday, and Senator Cannon, of Utah, will be the feature of another demonstration when he passes through. The mining camps are especially jubilant. At Aspen Thursday night the hills were vibrating with the boom of improvised cannon, and at Cripple Creek the streets were thronged by enthusiastic crowds all night.

Guarded as a salute of five guns, when the news of the bolt was received, and in the northern and southern Colorado towns the enthusiasm was unbounded.

The Rocky Mountain News says: "The withdrawal of Senator Teller and the delegations of the silver states from the national republic convention at St. Louis is the first step toward a new alignment of parties in this country. The action of the Colorado senator and those who followed his lead has been dictated by an absolute devotion to principle."

"No eulogium can be passed on Mr. Teller's speech which did it justice. Such impassioned words dictated by such unquestioned motives and coming from so true a heart have never before been heard in an American convention. They fell upon ears deaf to anything but the dictation of the money power, and upon consciences benighted in the worship of the golden calf. But their effect will not be confined to the walls of the convention hall. They will ring through its whole land and give hope and inspiration to the common people. They will make the name of Teller a hero and a light now openly begun, the result of which will determine whether the people or the money power is to rule the destinies of the nation."

The Times (independent republican) says editorially today: "The ticket nominated by the national republic convention at St. Louis yesterday will prove a strong one in the manufacturing section of the east, and in all localities where the financial question is not understood. It is essentially the rich man's ticket. It nowhere will have a strong hold on the masses of the people. If elected next November it must be through the power of money at the polls. The action of the convention in adopting the financial plank of the platform was weak, unpatriotic and impolitic. It will give the democratic party the opportunity of a century to ally itself with the interests of the whole people, while the republican party must stand as the protector of the small class of rich men in the money-lending and importing branch of business."

Are you weak and weary, overworked and full of care? Belling's is just the medicine you need to purify and quicken your blood and to give you appetite, renewed health and strength.

Low Rates to Cumberland and St. Simon's.

The Central of Georgia railway is now selling excursion tickets to these delightful seashore resorts at the following low rates: Tickets sold daily, limited for return until October 31st. Cumberland, \$12.15; St. Simon's, \$11.65. Tickets sold Saturdays, limited for return for train leaving Brunswick Monday night following date of sale. Cumberland, \$8.50; St. Simon's, \$8. Pullman sleeper, Atlanta to Brunswick through, without change. Ticket office 16 Wall street and union depot.

COST PRICES THRILL TRADE.

The genuineness of this Cost Sale is so generally known that our retail business has grown at a marvelously rapid rate. In a short time we will move into our new Pryor street store. Meanwhile we have determined to distribute the bulk of our retail stock, no matter how great the losses we sustain by the operation.

The pressure of responses to our recent announcements has forced us to recall our traveling salesmen, who are now compelled to do duty in the retail department, serving the throng that daily come after bargains such as these:

VALUES THAT ARE UNPARALLELED.

Each Customer Limited To One Dozen

White Porcelain Tea Plates..... 50c doz
Vienna China Tea Plates, white..... 75c doz
Vienna China Breakfast Plates, white, 95c doz
Vienna China Tea Cups and Saucers, \$1.25 doz
Haviland's White China Tea Plates, \$1.25 doz
Haviland's Fancy China Tea Cups and Saucers..... 35c doz

Thin Blown Crystal Tumblers..... 25c doz
Thin Blown, Engraved Crystal Tumblers..... 50c doz
Coca Cola Tumblers..... 75c doz
Soda Water Tumblers..... 75c doz

THESE BARGAINS ARE UNPRECEDENTED.

Decorated Porcelain Chamber Sets..... \$1.50
Decorated Porcelain Chamber Sets..... \$1.98
44-piece Decorated English Porcelain Tea Sets..... \$2.40
44-piece Austrian China Tea Sets, beautiful flower decoration..... \$4.65

THE GRAND JURY MAKES ITS REPORT

General Presentments Were Filed in the
Superior Court Yesterday.

AN INTERESTING DOCUMENT
That Body Discusses All Affairs Re-
lating to the County

AND MAKES SOME SEVERE CRITICISMS
Suggests a Local School Levy and
Larger Term—Roasts Receiver-
ship Fees.

The general presentments of the grand jury were presented Judge Lumpkin yesterday morning in open court. The grand jury has completed its work of investigation and the report shows that several improvements are needed for the conduct of the affairs of the county.

The manner in which the books and records of the county are kept is criticized, and it is suggested that an auditor be appointed whose duty it shall be to examine and check the accounts and other items of expense of the county.

A local tax law is also given the approval of the body for the satisfaction of \$100,000 in bonds for the purpose of improving the roads.

The grand jury criticizes the straw bonds which have recently become numerous and it says this should be stopped at once.

Fault is found with the fees paid lawyers in receivership cases, and it is charged that many individuals and corporations have been wrecked by fees paid the courts and attorneys when they could have survived the financial storm had it been otherwise.

The presentments in full are as follows:

To the Honorable J. H. Lumpkin, Judge of the Superior Court, Fulton County, Ga., the grand jury, chosen and sworn for the year 1896, respectfully submit the following report:

County Convicts. Each convict camp in the county, four in number, was visited and below is a detailed statement of location, condition, etc.

Main camp, known as the New Barracks, is situated on the north side of the county, and is a well-kept and comfortable place.

County Convicts. Each convict camp in the county, four in number, was visited and below is a detailed statement of location, condition, etc.

Main camp, known as the New Barracks, is situated on the north side of the county, and is a well-kept and comfortable place.

Main camp, known as the New Barracks, is situated on the north side of the county, and is a well-kept and comfortable place.

our second visit was assured it had been used with good effect. The stools run down the center of the building with open barrels of grease on each side. The barrels should be at least have a light cover or better still a bang and faucet.

There should be better facilities provided for drinking and bathing. An open barrel contains the drinking water, which is said to be emptied and refilled at night. If the water was kept in a tank on the outside and supplied by a system of pipes, the water would be purer and better, and not susceptible to contamination as at present. Water connections should be made with all the stools.

Drinking water supplied for bathing purposes, the convicts are allowed one bath per week, Sunday. Their work is very hard and they not only have to bathe at least twice a week in fresh and clean water not used by other prisoners as now.

We suggest that the construction of the roof of the building in which the prisoners are confined is not such as to protect them from rain and snow and cold in winter and heat in summer. The tiles are frequently wet by rain and are driven through the ventilators by the wind.

The roof should be extended so as to prevent this and the tiles should be replaced with tiles and the ventilators should be furnished for necessary purposes; with and unobstructed.

We are informed that religious services are held in the building. There are four Sunday schools offered by convicts, and the convicts are allowed to read and write. There are also teachers, supplied with maps, Sunday school papers, etc. Rev. Vaughn, a Baptist minister, is in charge of the schools.

We have examined the books and records of the county and find that the books are not kept in a proper manner. The books should be kept in a proper manner and the records should be kept in a proper manner.

are down and others eligible throughout the county.

The Mason & Turner's ferry road should be put in better condition by raising both sides of the road to the level of the street car track, and the road should be better maintained.

The road from Atlanta to Manchester via East Point should be maintained to the city limits to the county line, as farmers frequently start with loads to the city, unload half of it at the end of the macadam, carrying the balance home and come back and get the other half thereby showing that they could haul twice as much on the macadam road as they can on the dirt roads. This is one of the main thoroughfares of the county; we think this road should be macadamized from the city to the county limits.

The Jonesboro road from the junction of Lakewood road to Henderson's store is in bad condition for short distances; the holes and ruts should be filled.

The Sandtown road is in very fair condition for five miles out, but after leaving the five mile post, thence on to the county limits needs considerable work, and this is one of the main thoroughfares of the county it should be done at once.

The Ben Hill road from the junction of the road to the barracks, is in a deplorable condition and almost impassable. The convicts are now at work on this road and it should be completed as rapidly as possible, as the farmers in that section are unable to haul their crops unless it is in better condition.

The bridge across the creek in better condition, two sills being rotten and some planks in the bridge being decayed. The bridge should be thoroughly overhauled.

best thing on the market, price
only \$4.50.

HOT TIMES WITH EAGLE AND PHENIX

The Case Comes Up for a Settlement
Tomorrow Morning.

IT WILL BE WAR TO THE KNIFE

Strong Determination To Depose
Judge Bigby as Receiver.

SENSATIONAL DEVELOPMENTS ARE EXPECTED

Everybody Who Is Interested in the
Case Will Be on Hand To Urge
His Claims.

Tomorrow morning the hearing on the
Eagle and Phenix receivership complica-
tions will come up before Judge Newman
in the United States court, and unless
all signs fail it will be the most sensa-
tional case that has been exposed in a
Georgia courtroom in a very long time.

There was a great deal of talk about
harmony and an amicable adjustment
when the matter first came to light and
the two conflicting sets of receivers were
appointed to take charge of the mills.

This has all blown away and now both
sides have declared war and it will be a
fight to a finish.

Already the case has furnished ground
for a great deal of talk and there are
many who insist that not half has been
told and that the developments tomorrow
will be hotter than anything yet heard.

It has been charged that \$40,000 was
borrowed by the Eagle and Phenix Man-
ufacturing Company on 2,000 bales of cot-
ton, not a bale of which has been deliv-
ered.

It is said that an Alabamian has loaned
the corporation about \$20,000, taking only
their notes in return without a sign of
security or indorsement, and that he has
failed to realize a cent on his loan.

The charges against Judge Bigby per-
sonally have been published too recently
in the newspapers to necessitate repeti-
tion. The declaration that he raised his
salary from \$5,000 a year to \$20,000 has
been talked about for several days.

All of the charges made against the cor-
poration were made for things that oc-
curred during Judge Bigby's term as the
president of the concern.

Tomorrow a vigorous effort will be made
to depose him as an unfit man to act as
receiver.

The question that has agitated the busi-
ness world to a large extent is "Who is
responsible?" Many insist that the stock-
holders are individually responsible and
they rectify in support of this claim the
act of the legislature which established
the savings bank of the mills.

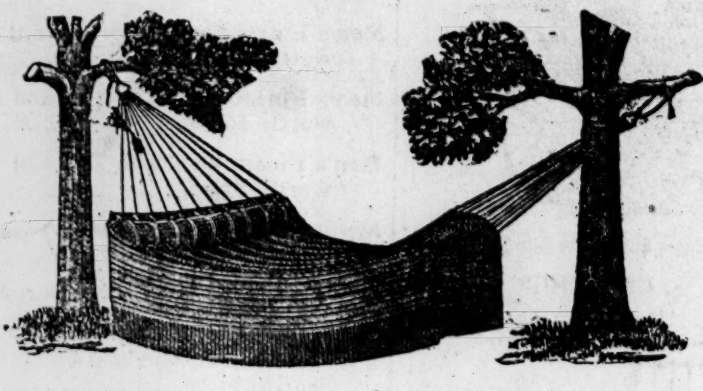

What the Law Says.

The second section of the act which
passed the legislature and was approved
in 1879, authorizing the Eagle and Phenix
Manufacturing Company to establish its
savings department, says:

"The said company is authorized and is
hereby required to pledge the entire capi-
tal stock and property of said company
for the payment of deposits and those
holding certificates of deposit in said sav-
ings department, and each stockholder in
said company shall be individually liab-

Mr. Charles A. Collier yesterday fur-
nished The Constitution with the follow-
ing affidavit for publication. It is his
reply to the statement of Judge Bigby,
which was published in yesterday morn-
ing's Constitution.

Georgia, Fulton County—Personally ap-
peared Frank N. Graves, who, on oath,
says that he is a director in the Eagle
and Phenix Manufacturing Company; that
he was present at the annual meet-
ing of the stockholders of said company,
held in Columbus, Ga., on the first Wednes-
day in February last, and that Judge
Bigby stated to deposit and Mr. Collier
that he would not hold a meeting of the
directors at that time but would call them
together at some time during the next
week; that a meeting of directors was held
two days thereafter and that deponent
was not notified to attend the same and
did not know it was held until some time
thereafter. Deponent further swears that
he was present at the United States court-
room on last Thursday and joined Messrs.
Collier and Manning in requesting Judge
Bigby to call a meeting of the directors
for Saturday, June 26th, and after some
statement signed by C. A. Collier, he
will call the meeting. Deponent further
swears that he has carefully read the
statement of Judge Bigby published in
yesterday's Constitution and the statements
made are true. F. N. GRAVES.

"Sworn to and subscribed before me this
June 24, 1896. WITNESSES:
"A. W. MARTIN,
Notary Public, Fulton County, Georgia."

A telegram was received from Mr. Mark
W. Munroe, of Quincy, Fla., by Mr. Col-
lier yesterday, stating that Judge Bigby
had promised to send a notice for a meet-
ing of the board of directors for last Sat-
urday and adding that he would forward
an affidavit to that effect.

Make it a point to see that your blood
is purified, enriched and vitalized at this
season with Hood's Sarsaparilla.

WHERE SHALL WE SPEND THE
SUMMER?

Lookout Inn, Lookout Mountain, Tenn.,
the Palace Hotel of the South.

Offers inducements superior to any other
resort in the south. Here the atmosphere
is always cool and clear. The nights are
perfect. There are no mosquitoes and ma-
laria is absolutely unknown. The scenery
is the finest in the world, so pronounced
by the historian Bancroft, the great trav-
eler Stanley and a host of others. Lookout
Inn is a beautiful gem of architecture,
built of the famous old red sand stone and
wood; finished in the interior throughout
in quartered oak, and decorated by some
of the best known artists of the country
at enormous expense. The water used on
the premises is from the celebrated Leona
Spring, the purest in the world. This his-
toric resort promises to be unusually bril-
liant this season. Write for circulars and
terms to M. S. Gibson, manager. Special

On to Richmond.

The Seaboard Air-Line has been selected
by a majority of the confederate veterans
as the official route to Richmond, Va. Why?
Because the Seaboard Air-Line has two
trains a day each way between Atlanta and
Richmond.

The Seaboard Air-Line is the only line
running solid vestibule trains between
Atlanta and Richmond.

Go with the majority and see all the his-
toric battlefields—among them Petersburg,
Richmond, and the battle of Seven Days.
Come down the "Old James" on a palace
steamer via Dunwoody's Bluff or via the Ches-
apeake and Ohio through Seven Pines, Vir-
ginia, Norfolk, Old Point, Virginia,
Hampton, Fort Monroe, Newport News,
Richmond, and return to Atlanta via the
great United States battleship, when you
are ready to return from Port-
smouth or Richmond you have at your dis-
posal two trains daily for Atlanta and the
south. June 24-25

Take your breakfast at Vignaux's, 15
Whitehall street, Bread, potatoes, coffee,
bread and butter, 15 cents.

For the State Convention.

Round trip tickets from all stations on
Southern railway to Macon, June 24th, 25th
and 26th. From Atlanta \$1.52 round trip.
Similarly low rates from all other stations.
Tickets good returning until July 3d.
Southern railway trains leave Atlanta
7:30 a. m., 4:10 p. m. and 8:35 p. m. Tick-
ets on sale Kimball house corner and
union depot. June 22-23

RICHARDSON-INMAN

Wedding of Two Popular Young People

Near Rome

AT THE INMAN SUMMER HOME

A Brilliant Affair Which Joined Two Happy Hearts—Who Were Present.

The wedding of Mr. Hugh V. Richardson, of Vicksburg, Miss., and Miss Josephine VanDyke Inman, of Atlanta, Ga., took place yesterday afternoon at 5:30 o'clock at the summer home of the bride's parents, near Rome, Ga. The prominence of the bride and groom made the wedding one of great social importance throughout the south. A special train from Vicksburg brought a large party of the groom's relatives and friends from that city, and a special train from Atlanta carried about one hundred and fifty, among them the wedding attendants.

At 2 o'clock the entire party were the guests of Mr. Hugh T. Inman at an elegant luncheon at the Armstrong hotel. At 5 o'clock carriages were in readiness and the guests were driven to the palatial summer home of Mr. Inman, where at 5 o'clock the ceremony was performed.

A more picturesque and beautiful scene can scarcely be imagined than that presented by the home on the occasion of the wedding that in its every detail combined all that wealth and artistic taste can accomplish.

The driveway from the lodge gate, a quarter of a mile from the main entrance to the immediate premises, was through a natural archway composed of luxuriant trees and foliage, shading on either side beautifully cultivated beds of flowers, aglow with the brightest of red verbenas, geraniums and every variety of the garden rose. On reaching the house, the guests were received on the spacious galleries, beautiful in the array of palms, tropical plants of all kinds and a profusion of hydrangeas. Bannock furnishings and couches with innumerable cushions and rich coverings added to the air of luxury. Immediately in front of the main hall, where the gallery assumes a colonnade form, occurred the marriage ceremony. From the white columns of the doorway, hung in draperies of tulle and asparagus fern, forming an archway, the bride and groom descended and, confined to the head of the broad steps of the entrance. Here another archway was formed, artists in draperies of tulle confined at intervals with festoons of asparagus fern and pink roses. Within the white satin ribbons stood the bride party, and without, filling every available space in the broad galleries, were the happy admiring guests.

At 5:30 o'clock the strains of the orchestra in the favored bridal song, from Mendelssohn, accompanied the bride party, who descended from the broad white staircase, through the beautifully decorated hallway, and formed a veritable tableau within the entrance door. First came the ushers, Captain Robert J. Lowry, a cousin of the bride, and her sister, Mrs. John William Grant, and followed by Mr. Peter Grant and Dr. Van Baum, of Philadelphia; Miss Thomas, of Vicksburg, and Miss Barnett, of Atlanta; Mr. Walter Inman, of Atlanta; Mr. Warner, of Vicksburg; Miss Adelle Maud, of Atlanta, and Miss VanDyke, a cousin of the bride, from Chattanooga; Mr. F. W. Williams, of Washington, D. C., and Mr. Percy Cowan, of Vicksburg; Misses Emily English and Lillie Orme, of Atlanta; Miss Isabel Newman, of Atlanta, acting as maid of honor, preceded the bride, who, with her father, was met by the groom and his best man, Mr. Norval Richardson, under the archway at the entrance, where the ceremony was performed. Dr. Barnett officiated with grace and impressive dignity. As the bride's blessing was pronounced, the orchestra played selections from Wagner and the bride party repaired to the main hallway to receive congratulations. Here the decorations were a continued effect of white and green. The white columns had garlands of asparagus ferns, and the bride and groom stood under a canopy of white tulle veiled in draperies of white with here and there clusters of pink roses.

The bride's gown was characterized by its simple elegance and well suited to her refined loveliness. Over a petticoat of white satin was a skirt of white grenadine, on the front of which were applied two rows of duchesse lace outlined with as embroidery of pearls. The white columns had garlands of asparagus ferns, and the bride and groom stood under a canopy of white tulle veiled in draperies of white with here and there clusters of pink roses.

gentle dignity she never appeared more charming than in her bride's robes.

Mr. Richardson is among the most prominent young business men of the south and is universally popular in the social realm. He is the second son of the late Lee Richardson, of Vicksburg, and has a host of friends in his native state enthusiastic in their expressions of respect and admiration for him.

Mr. and Mrs. Richardson left Rome last night for Lookout mountain. After spending a few days there they will go to California for a winter trip.

There were a number of beautiful toilettes seen at the wedding, graced by a bevy of notably handsome women. Mrs. Richardson wore black duchesse satin and point lace.

Mrs. Hugh T. Inman wore a white silk grenadine showing figures of the buvette tints. The corsage was elaborately trimmed in valenciennes lace and pearl embroidery.

Mrs. Lee Richardson, a charming blonde woman, wore a French gown of white grenadine brocade in orchids of belle-trope tints. The sleeves were of the same material and the corsage composed of folds of cream satin, had a yoke of cream muslin of sole tucked-in.

Mrs. John W. Grant wore an ecrú colored grenadine over rose silk, the bodice finished with a wide black lace edging. Mrs. William D. Grant wore a muslin de soie of white, showing delicate figures in flowers. It was made over rose silk and beautifully trimmed in lace.

"DOROTHY" JUST ONCE.

THE POPULAR OPERA WILL BE REPEATED TONIGHT.

Dainty Little Nella Webb To Make Her Atlanta Debut—An Evening of Fun Promised.

"Dorothy" is the bill tonight. It is repeated by special request, very many of the patrons of the Grand believing that it is the best production which the company has yet given. Certainly it is one of the very prettiest of operas and when it was put on the early part of last week proved a distinct hit.

The production of "Dorothy" means a repetition of that clever bit by Miss Baker and George Boniface, "Mary and Her Lamb." This is one of the funniest bits that the opera season has brought forth. Among the other specialties underlined for this evening is the Atlanta debut of Miss Nella Webb, a charming little girl who has been on the stage a couple of years and who will sing that popular hit, "Poverty Row." Miss Webb has many friends in Atlanta who will doubtless be on hand to give her a hearty welcome, and she is said to be a very attractive singer.

The opera itself is replete with good stuff and gives the principals and chorus good opportunities. "The Mascot" was repeated at matinee yesterday and again last night to excellent business. Friday and Saturday and Saturday matinee the bill will be "The Chimes of Normandy." Manager Rosenthal promises a surprise for the matinee and on Saturday for the evening. "The Chimes" is always popular in Atlanta and this company ought to be able to give it in excellent shape.

TO STRIKE TODAY.

Plumbers Decide Upon the Course Last Night.

The plumbers, steam and gas fitters of Atlanta will go out on a strike this morning.

The mass meeting last night adopted a demand, a copy of which will be presented to every master or employing plumber in the city before work time this morning.

If the scale is not granted by the master plumbers, the journeymen plumbers, steam and gas fitters will walk out.

The plumbers seen after the meeting adjourned this morning claimed that nearly all of the plumbers in the city attended the meeting and that all would remain steadfast for the demand.

The plumbers' business would be tied up early this morning unless the proposed scale is adopted.

The plumbers cite that they have endeavored by peaceful methods to adjust their grievances and secure justice. Failing in that they say they decided on the action taken last night. Two meetings have been held this week at which the matter was discussed. The plumbers are firm in their position and they say that the trade is in a very unsatisfactory condition.

The Plumbers' Demand.

The following communication will be handed to every master plumber and foreman when the shop doors are opened this morning.

"Atlanta, Ga., June 24, 1896.—Owing to the unsatisfactory condition of the plumbers, steam and gas fitters of Atlanta, open meetings were held June 23d and June 24th for the purpose of discussing the same.

"Having tried in every way by peaceful methods to secure a settlement of the trouble and failing,

"We hereby demand, on behalf of local union No. 72, United Association of Journeymen Plumbers, Steam and Gas Fitters, that a scale of wages be adopted as follows:

"Plumbers \$3 per day.
"Steam fitters \$3 per day.
"Gas fitters \$2.50 per day.

"This to go into effect at once, that is, the 25th day of June, 1896.

"J. E. GUEST,
"C. J. BOATSWRIGHT,
"FAY PEERS, "Committee."

The plumbers claim that some of the shops in the city are paying much less wages than the demand. They say that plumbers are working at such wages as to ruin the trade, some of the shops paying from \$1.50 to \$2.50 for plumbers and gas fitters. The trouble has been brewing for some time and its culmination in the adoption of the demand will bring a settlement of some kind.

How the master plumbers will look upon the demand remains to be seen. There may be a hard fight and lockout.

Bitten by a Mad Dog.

Yorkville, S. C., June 24.—(Special.)—Walter, the fifteen-year-old son of Mr. N. J. Johnson, a prosperous farmer of Bethesda township, was bitten by a mad dog last Sunday and on yesterday, accompanied by his father, the boy was taken to the hospital for the purpose of applying a mad dog vaccine to the wound. The dog was the property of Mr. Johnson. It made a deep escape and is still terrifying the neighborhood.

HIS LIFE WAS

CRUSHED OUT

Horrible Death of Mr. Buttolph at

Columbus.

HIS MUTILATED BODY FOUND

It Was a Nearly Unrecognizable Mass of Flesh.

GROUND BETWEEN THE LARGE COIS

The Unfortunate Man the Son of a Marietta Minister and a Genial Gentleman.

Columbus, Ga., June 24.—(Special.)—A horrible accident happened here at the Eagle and Phoenix mills today, where, in the rear of the mill, a short distance from where the roaring river thundered over the mill-dam, Mr. William H. Buttolph, a cotton buyer for the mills and a young man of promise, met a terrible fate unseen by human eyes. Mr. Buttolph had been down to the mill dam and was standing about the driving gear of the mill at a point where the mighty force of the water is demonstrated to operate the mill. It is supposed that he made a misstep or in some way, possibly caused by dizziness, fell, and being caught in the mighty cogwheels met death instantly.

A few minutes after the occurrence the mangled and almost unrecognizable remains of Mr. Buttolph were found by one of the employees of the mill, who had gone down on the flume to oil the machinery.

These cogwheels are the means of transferring the power from the mighty water wheels to the main shaft of the mill, where it is utilized and divided throughout the establishment by means of familiar contrivances. Beneath these gear wheels are the big water wheels, and hence it is right here that a person can experience the full force of the mighty water.

"SHE DRESSES WELL"

But Her Clothes Often Cover a Living Death.

Beauty Is the Shrine of Men's Worship, and Women Vie With Each Other to Make Themselves Attractive.

The remark, "She dresses elegantly," is a very common one in this age of wealth and progress.

Women vie with each other in making themselves attractive, for men admire a stylishly dressed woman.

Good clothes add to the charms of the woman in perfect health, but are ill-befitting those who through ignorance or carelessness have suffered the inroads of female diseases.

To stamp them as physical wrecks. It is unfortunate, but true, that some physicians allow women to suffer needlessly, because men can only work from theory, and at best only patch up, without removing the cause.

Proof is abundant that Lydia E. Pinkham's Vegetable Compound removes the cause, gives strength to the weakened organs, vigorous health to the system, and therefore beauty to the face and form.

Mrs. Pinkham, Lynn, Mass., gladly answers, free of charge all letters. Here is one of the results:

"Three months ago, I wrote you a letter describing my troubles, which were inflammation of the womb and bladder. I had not seen a well day since the birth of my second child, and I have been using Lydia E. Pinkham's Compound for three months. Now I can work all day without pain. I have recommended the Compound to many of my friends, and gladly recommend it to all women in any way afflicted with female troubles."—LYDIA BATES, 227 Spring St., Greensburg, Pa.

Fraud and Dishonesty.

Success or failure: these are the words that tell the tale of all industries and enterprises. In the case of the latter, the failure is the result of dishonesty and unfairness. The medical profession furnishes many examples of this truth. Dr. Hathaway & Co. have secured a remarkable success in the treatment of many diseases. Their success is due to the fact that they have dealt fairly with the public, and are true, genuine specialists. They recognize the fact that diseases of the human family should be treated only by scientific methods and expert physicians. They are fitted by education and experience with the rapid action, and have kept pace with the latest advances in medical science. They succeed where others fail, because they have made it their business to study the human body, and to understand the causes of disease, and to apply the proper treatment. They have no other aim than to cure, and they are not content until they have secured permanent relief for their patients. They are not interested in the sale of their medicine, but in the cure of the disease. They are not interested in the amount of money they receive, but in the health of their patients. They are not interested in the reputation of their name, but in the satisfaction of their patients. They are not interested in the praise of the world, but in the praise of their patients. They are not interested in the wealth of the world, but in the health of the world. They are not interested in the power of the world, but in the peace of the world. They are not interested in the glory of the world, but in the happiness of the world. They are not interested in the fame of the world, but in the love of the world. They are not interested in the honor of the world, but in the respect of the world. They are not interested in the admiration of the world, but in the gratitude of the world. They are not interested in the approval of the world, but in the confidence of the world. They are not interested in the respect of the world, but in the love of the world.
